It does not work without small print! Even if a lot of things are self-evident, we of course have to define everything in a legally secure way. And we also want to make sure that all questions are answered.

When is your investment or registration "complete"?

Your registration is complete when you:

An investment is complete when you:

- have provided all necessary information and are authorised to invest,
- have identified yourself (i.e. you have successfully completed the so-called Know Your Customer process)
