suspended in a hydrating base.
3% peroxide overall.

<1 minute (Apply & Go). Apply up
to 4 times a day. Do not rinse or
brush for 30 minutes after use.

EXPECTED RESULTS

MODE OF ACTION & DELIVERY SYSTEM

APPLICATION TIME

- All Crest at-home whitening products are enamel safe.
- Results depend on different factors, including a patient's age, how yellow their teeth are, and how often they apply the product.
Most patients see teeth whitening results after just a few uses.
- Duration of results varies, depending on the patient's use of teeth-discoloring beverages like wine, coffee, tobacco, soda, etc.
- Remember, at-home whitening products won't work on caps, crowns, veneers, partials, fillings, laminates, or other similar dental work.
