

# Apartment Supervision-Services

We take care of your apartment!

If you only visit your apartment in Andermatt sporadically, then we will ensure everything is in good order. Take a look at our offers:

## Supervision-Service Basic

We check your apartment twice a month. This includes ventilation, checking the water is running correctly, flushing toilets, watering plants and emptying the letterbox.

CHF 600 per year

## Supervision-Service Basic+

With Basic+ Service, an additional arrival check is carried out. For this, heating is regulated and the apartment checked to see whether it needs cleaning. Please contact Customer Services no more than five days before arrival so that the check can be carried out and the cleaning arranged if required.

CHF 730 per year excl. cleaning fees

## Supervision-Service Premium

With the Premium Supervision Service, we look after any small (up to 30 minutes) maintenance works that arise. There's no limit to the number of these jobs. This will include both the job itself and bringing along any of the required tools and small parts.

CHF 1210 per year
