Annual General Meeting 2025

The 2025 Annual General Meeting takes place on May 14 in Stockholm. Notice of the general meeting will be available on the company's website www.paradoxinteractive.com together with all required documents for the AGM.

The nomination committee ahead of the AGM 2025

The task of the nomination committee shall be to present proposals regarding the chairman of the annual general meeting, number of board members, board and auditor fees, composition of the board, chairman of the board, rules for the nomination committee prior to the annual general meeting next year, and the election of an auditor before the 2025 annual general meeting. The chairman of the board must be a member of the nomination committee and be responsible for convening the nomination committee. The members of the nomination committee shall be appointed by the chairman of the board contacting the three shareholders with the largest number of votes as of September 30, 2024, who shall each appoint a representative to, together with the chairman of the board, constitute the nomination committee for the period until the next annual general meeting has been held or, as the case may be, until that a new election committee has been appointed. If any of the three shareholders with the largest number of votes chooses to waive their right to appoint a representative, the right passes to the shareholder who, after these shareholders, has the largest shareholding until the election committee is fully formed.

The nomination committee also has the option of appointing one more member to represent the smaller shareholders. If a member leaves the nomination committee before its work is completed, a replacement must, if deemed necessary, be appointed by the same shareholder who appointed the departing member or, if this shareholder no longer belongs to the three largest shareholders in terms of votes, by the new shareholder who belongs to this group. The composition of the nomination committee must be made public as soon as it is appointed and no later than six months before the annual general meeting. In the event that a change in the ownership structure occurs after the nomination committee has been assembled in such a way that one or more of the shareholders who appointed members of the nomination committee no longer belong to the three largest shareholders in terms of number of votes, the composition of the nomination committee can also be changed accordingly if the nomination committee deems that so is required.

If there are no special reasons, however, no changes shall take place in the composition of the election committee if only marginal changes in the number of votes have taken place or if a change occurs less than three months before the annual general meeting. At its first meeting, the nomination committee shall appoint its

chairman, who shall not be the chairman of the board. The nomination committee shall have the right to obtain resources from the company upon request, such as secretarial functions in the nomination committee, and have the right to charge the company with costs for recruitment consultants if deemed necessary.

The nomination committee's proposal, its reasoned statement to the proposed board and information about proposed board members are published in connection with the call to the annual general meeting.

BOARD OF DIRECTORS

The board is the highest decision-making body after the shareholders' meeting and the company's highest executive body.

Work of the board of directors

According to the Swedish Companies Act, the board is responsible for the management and organisation of the company, meaning that it among other tasks should decide on targets and strategies, ensure routines and systems for the evaluation of the decided targets, continuously evaluate the financial position and development of Paradox and evaluate the executive management. The board is also responsible for ensuring that the annual report, group accounts and the interim reports are produced at the appropriate time. In addition, it appoints the CEO. The board members are elected each year at the AGM until the end of the next AGM.

Composition of the board

According to the articles of association, the board, to the extent it is elected by the general meeting, must consist of a minimum of five and a maximum of eight members. The chairman of the board is elected by the annual general meeting and has special responsibility for the management of the board's work and that the board's work is well organised and carried out efficiently. At the 2024 AGM, the current board was re-elected, represented by the following AGM-elected members; Fredrik Wester, Håkan Sjunnesson, Andras Vajlok, Mathias Hermansson and Linda Höglund as regular members. During the year, the composition of the board met the code's requirements regarding independent members. This means that the majority of the board members elected by the general meeting are independent in relation to the company and company management, of which three are also independent in relation to the company's major shareholders.

Duties of the board of directors

- The board members must give the board assignment enough time and care.
- The members must independently assess the matters that the board has to consider and present opinions and take positions arising therefrom. Each board member must act independently and with integrity and for the benefit of both the company and the shareholders.

- The members must request additional information that is considered necessary for the board to be able to make well-founded decisions.
- The board members must obtain such information about the operations of Paradox and the group, its organisation, the market, etc., as is required for the assignment.
- New board members must participate in the introduction and further training that is required and that the chairman and board members mutually deem sufficient.

Chairman of the board

The chairman of the board is appointed by the annual general meeting. The chairman's task is to organise and lead the board's work so that it is conducted efficiently and that the board fulfills its commitments. Håkan Sjunnesson was appointed at the 2024 AGM as chairman of the board for the period until the next AGM.

Rules of procedure and board meetings

The Board's work is further controlled by the written rules of procedure that the board annually reviews and determines at the constituent meeting. The rules of procedure regulate the board's working methods, tasks, decision-making within the company, the Board's meeting agenda, the chairman's duties, and an appropriate division of tasks between the board and the CEO. An instruction for financial reporting and instructions to the CEO are also decided at the statutory board meeting. The board shall also ensure that the company's external communication is characterised by transparency and is accurate, relevant, and clear. The board is also responsible for establishing the necessary guidelines and other policy documents, such as communications policy and insider policy.

The board's work in 2024

The board's rules of procedure describe, among other things, which items must be found on the agenda at each board meeting, constituent board meeting, and which items must be found at one or more of the board meetings during the year. In 2024, the board held fourteen meetings, one of which is a constituent meeting, and four for the establishment of interim or year-end reports. Ordinary board meetings usually contain information from the CEO, including information linked to the operational position, significant events for the group and as well as financial statements for the period. Key points in the board meetings in 2024 have been questions about, but not exclusively, investment strategies, acquisitions, interim and annual reports, dividend proposals.

The committee's responsibilities are, among other things, to monitor the company's financial reporting and prepare the board's work on quality assurance of the same, to monitor the company's internal control, internal audit and risk management regarding financial reporting, and to establish guidelines for the procurement of additional services from the company's auditor. In addition, the committee shall assist the nomination committee in the preparation of proposals for election of auditors and auditor fees, and continuously meet the company's auditor. All audit committee meetings are minuted and the protocols are given to the board together with a verbal report in connection with the board's decision-making.

Remuneration committee

In connection with the constituent board meeting the board appointed a remuneration committee consisting of at least three members who are not working operationally in the company. The committee's task is to prepare the board's decisions on matters concerning remuneration principles and remuneration and other conditions of employment for senior management. Further, the

committee shall monitor and evaluate current and during this year completed programs for variable remuneration to the senior management and monitor and evaluate the application of the guidelines for remuneration to senior executives which will be adopted by the AGM. The remuneration committee must also monitor and evaluate programs for variable remuneration for company management, the application of guidelines for remuneration to senior executives and current remuneration structures and remuneration levels in the company.

Audit

The auditor shall review the annual report and accounts, and the work conducted by the CEO and board. Following the end of each financial year, the auditor presents a review report and a group audit report to the AGM. According to the articles of association of Paradox, the company shall appoint a maximum of two auditors with or without a maximum of two deputies or a registered audit company. At the AGM 2024 Öhrlings PricewaterhouseCoopers AB was appointed as the auditor of Paradox.

CEO and Senior management

The CEO is appointed by the board and is primarily responsible for the company's management and daily operation. The division of labor between the board and CEO is stated in the Rules of Procedure for the board and instructions for the CEO. The CEO is also responsible for preparing reports and compiling information from management prior to board meetings and presents the material in board meetings. According to the instructions for financial reporting, the CEO is responsible for the financial reporting of the company and must therefore ensure that the board receives sufficient information to enable the board to evaluate the Paradox financial position. The CEO shall keep the board informed of the development of Paradox operations, the volume of sales, the company's results and financial position, liquidity and credit situation, key business events and other circumstances that cannot be assumed to be insignificant to the company's shareholders to the board's knowledge.

Important matters addressed by the CEO and senior management in 2024 included:

The CEO and senior management have presented interim reports on a recurring basis, presented proposals for investments in new game projects, presented the status of the ongoing game development, and proposals for approval of gaming project phases.

REMUNERATION TO CEO AND SENIOR MANAGEMENT

Guidelines last determined by the AGM 2022

Remuneration for senior executives may consist of a fixed cash salary, variable cash compensation, pension benefits and other customary benefits. Senior executives are also covered by the group-wide profit-sharing program, on terms that may not be more favorable than those that apply to all employees. The general meeting can in addition - and independently of these guidelines - decide on, for example, share and share price-related compensation.

Pension benefits, including health insurance, to senior executives must be defined as premiums according to the company's collective agreement ITP1. As a general rule, the fixed salary is reviewed once a year and must take into account the individual's qualitative performance. The remuneration is based on the individual's

commitment and performance in relation to pre-set goals, both individual and joint goals for the entire company.

Remuneration for senior executives must be market-based. In order to determine what is a market-based total compensation and to evaluate prevailing compensation levels, annual comparisons are made with relevant industries and markets. The result of these forms an important input variable when deciding on total compensation for senior executives and other employees.

The variable cash compensation must be linked to predetermined and measurable criteria that can be financial or non-financial. The goals must be designed to promote the company's business strategy and long-term interests, including its sustainability agenda, by, for example, having a clear connection to the business strategy. When the measurement period for fulfillment of criteria for the payment of variable cash compensation has ended, it must be assessed and determined by the board to what extent the criteria have been fulfilled.

The employment conditions and salary of the company's employees have been considered when preparing the board's proposal for these compensation guidelines through information on employees' total compensation and its components, increase and rate of increase over time. The basis has formed part of the remuneration committee's and the board's decision basis when evaluating the reasonableness of the guidelines and the limitations that follow from the guidelines.

Both the company and the CEO must observe a nine-month notice period. For other senior executives, both parties must observe a six-month notice period. In addition, senior executives are not entitled to any compensation in connection with the termination of their employment.

The board has established a remuneration committee. The members of the remuneration committee are independent in relation to the company and company management. The company's CEO is not present at the board's consideration of and decisions on compensation-related issues that concern the person concerned. The committee's duties include preparing the board's decision on proposals for guidelines for remuneration for senior executives. The guidelines shall apply until new guidelines are adopted by the general meeting. The remuneration committee must also monitor and evaluate programs for variable remuneration for company management, the application of guidelines for remuneration to senior executives and current remuneration structures and remuneration levels in the company.

The board may decide to temporarily depart from the guidelines in whole or in part, if in an individual case there are special reasons for it and a departure is necessary to satisfy the company's long-term interests, including its sustainability, or to ensure the company's financial viability. As stated above, the remuneration committee's tasks include preparing the board's decisions on remuneration matters, which include decisions on deviations from the guidelines.

The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts and consolidated accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts and consolidated accounts, The Board of Directors and the Managing Director are responsible for the assessment of the company's and the group's ability to continue as a going concern. They disclose, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern basis of accounting is however not applied if the Board of Directors and the Managing Director intend to liquidate the company, to cease operations, or has no realistic alternative but to do so.

Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the annual accounts and consolidated accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts and consolidated accounts.

A further description of our responsibility for the audit of the annual accounts and consolidated accounts is available on Revisorsinspektionen's website: www.revisorsinspektionen.se/revisorsansvar. This description is part of the auditor's report.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Opinions

In addition to our audit of the annual accounts and consolidated accounts, we have also audited the administration of the Board of

Directors and the Managing Director of Paradox Interactive AB (publ) for the year 2024 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit be appropriated in accordance with the proposal in the statutory administration report and that the members of the Board of Directors and the Managing Director be discharged from liability for the financial year.

Basis for Opinions

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss. At the proposal of a dividend, this includes an assessment of whether the dividend is justifiable considering the requirements which the company's and the group's type of operations, size and risks place on the size of the parent company's and the group's equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company's organization and the administration of the company's affairs. This includes among other things continuous assessment of the company's and the group's financial situation and ensuring that the company's organization is designed so that the accounting, management of assets and the company's financial affairs otherwise are controlled in a reassuring manner. The Managing Director shall manage the ongoing administration according to the Board of Directors' guidelines and instructions and among other matters take measures that are necessary to fulfill the company's accounting in accordance with law and handle the management of assets in a reassuring manner.

Auditor's responsibility

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to assess with a reasonable degree of assurance whether any member of the Board of Directors or the Managing Director in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Annual Accounts Act or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company's profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company's profit or loss are not in accordance with the Companies Act. A further description of our responsibility for the audit of the administration is available on Revisorsinspektionen's website: www.revisorsinspektionen.se/revisornsansvar. This description is part of the auditor's report.

Disclosures in accordance with chapter 6, section 6 the second paragraph points 2-6 the Annual Accounts Act and chapter 7 section 31 the second paragraph the same law are consistent with the other parts of the annual accounts and consolidated accounts and are in accordance with the Annual Accounts Act.

We believe that the examination has provided us with sufficient basis for our opinion.
