

Hearts of Iron IV: Frontlines - Basic Ruleset

This serves as a foundational ruleset that you can either build upon or directly implement for your multiplayer adventures.

1. Ensure your Discord username matches your in-game lobby name.
2. Maintain a respectful and non-toxic demeanor towards the host and fellow players across all communication channels (voice chat, DMs, etc.). Violations may result in penalties within Discord and the game.
3. You are not allowed to engage in cheating or exploit game mechanics to gain unfair advantages, including factory boosting.
4. Boost other players' ideologies only with their consent (excluding puppets or AI allies).
5. Avoid releasing nations to create an excessive number of puppets.
6. Refrain from transferring land without valid reasons, especially prior to leaving the game.
7. Do not artificially inflate World Tension by boosting it.
8. Do not engage in dogpiling. Avoid declaring war on players already engaged in a conflict with another player or major AI for a period of less than 6 months.
9. Respect the designated game speed and avoid unnecessary pausing.
10. Adhere to house rules and modifications established for the game.
