MELAG

competence in hygiene

Ultra-powerful against the toughest residues

MELAsonic ultrasonic cleaning devices

Quality – made in Germany

MELAsonic Series

Wave goodbye to stubborn residues

Small waves, big impact: The new MELAsonic ultrasonic cleaning devices deliver powerful, effective pre-cleaning for your instruments. Ultrasonic waves reliably loosen alginates, dental cements and other stubborn residues – even in hard-to-reach areas. This ensures optimal preparation for subsequent instrument reprocessing steps while reducing the daily workload of your practice team.

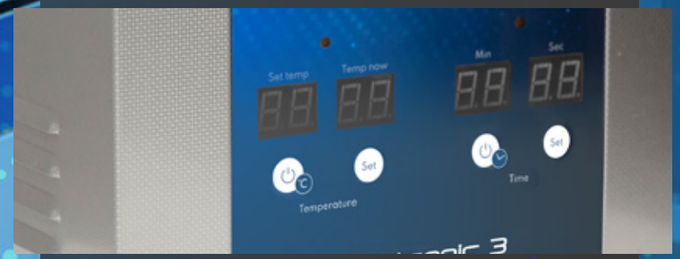

Product highlights

- **Available in 3- or 6-liter capacities,** each with a perfectly matched stainless steel basket
- **Compact device dimensions** with a convenient drain valve on the 6-liter model

- **Noise-reduced device design** for pleasantly quiet operation in the reprocessing room
- **Rounded stainless steel tank** for easy removal of deposits
- **High-quality stainless steel housing and powerful components** for long-lasting reliability

- **Digital time and temperature control** for different requirements and contamination levels

  ℹ Recommended temperature of 40 °C for effective removal of protein residues

- **Maintenance-free operation** for minimal effort in everyday practice

Technical data

Facts and figures at a glance.

	MELAsonic 3	MELAsonic 6
Order no.	ME01303	ME01306
Device dimensions (W × H × D)	28.8 x 24.8 x 15.8 cm	36.5 x 29 cm x 17.8
Stainless steel tank dimensions (W × H × D)	24 x 10 x 13.5 cm 3.2 liters	30 x 15 x 15 cm 6.8 liters
Operating time (adjustable)	1-99 min	
Operating temperature (adjustable)	max. 80 °C	
Drain valve	no	yes
Weight	3.5 kg	5.4 kg
Power supply	220-230 V, 50/60 Hz	
Power consumption	220 W	380 W

Your safety. Fully covered.

The MELAG System Solution

Every practice is unique. With tailored system solutions, we are the partner you can rely on. Benefit from our new MELAsonic ultrasonic cleaning devices for targeted pre-cleaning – even before the actual instrument reprocessing begins with perfectly coordinated MELAG washer-disinfectors, sealing devices, autoclaves and software solutions. This is how we turn your ideas of a time-, space- and cost-saving hygiene workflow into reality.
