

# Power life-saving cancer research

**Pledge a  
gift in your  
Will today**

## How your gift powers progress

**£1,800**

could buy imaging software that film cells in real-time, helping our scientists test promising new cancer treatments.

**£7,000**

could buy an incubator to keep cell samples warm so scientists can study how they would behave in the body.

**20% of a £250,000 estate**

helps to buy a time-saving sample prep machine that gives our scientists more time to focus on beating cancer.
