

Virtual Spotlight

Exploring diagnosis of cancer as an emergency: Evidence and insight from the UK and other countries

Monday 27th June 2022

Agenda

Welcome & chair

14:00

Welcome

Samantha Harrison, Interim Head of Strategic Evidence, International Cancer Benchmarking Partnership (ICBP) Research Lead, Cancer Research UK

Diagnosis of cancer as an emergency: Understanding a global problem and the avenues to its improvement

Chair: **Professor Yoryos (Georgios) Lyratzopoulos**, Professor of Cancer Epidemiology, University College London

Diagnosis of cancer as an emergency in an international context

14:15

ICBP Module 9 Emergency Presentations: Findings and collaborative model

Dr Sean McPhail, Principal Analyst, National Disease Registration Service, NHS Digital

More detail to help understand emergency presentations across jurisdictions

Dr Matthew Barclay, Research Fellow, ECHO (Epidemiology of Cancer Healthcare and Outcomes), University College London

14:45

Q&A with Professor Yoryos (Georgios) Lyratzopoulos, Dr Sean McPhail and Dr Matthew Barclay

14:55

Break

Continued on next page

Learning from national studies on emergency presentations and diagnostic routes (variation by socioeconomic status, morbidity and trends over time)

15:00

Assessing how routes to diagnosis vary by the age of patients with cancer: A nationwide register-based cohort study in Denmark

Dr Bolette Danckert, Chief Consultant, Danish Cancer Society Research Center

The Norwegian Cancer Patient Pathways (CPP) programme and routes to diagnosis evidence

Dr Yngvar Nilssen, Statistician, Cancer Registry of Norway

Understanding reductions in diagnoses of cancer as an emergency presentation, in England

Dr Annie Herbert, Research Fellow, MRC Integrative Epidemiology Unit, University of Bristol

Focus on translation/reflection on evidence thus far

15:40

Northern Ireland's Experience and learning from International comparisons including routes to diagnosis

Dr Anna Gavin, Director, Northern Ireland Cancer Registry

Insights from Norway

Dr Bjørn Møller, Head of Department of Registration, The Cancer Registry of Norway

Reflections on evidence from Denmark

Dr Henry Jensen, Senior Researcher, Research Unit for General Practice

15:50

Q&A with Professor Yoryos (Georgios) Lyratzopoulos, Dr Bolette Danckert, Dr Yngvar Nilssen, Dr Annie Herbert, Dr Anna Gavin, Dr Bjørn Møller and Dr Henry Jensen

16:00

Wrap up

Professor Yoryos (Georgios) Lyratzopoulos, Professor of Cancer Epidemiology, University College London
