## Expert Review Panel Members

FY2021-2022

## EXPERT REVIEW PANEL MEMBERS (FY21-22)

To ensure we fund the best quality science and researchers, we operate a rigorous review process to make funding decisions.

We ask external, independent, leading scientists, clinicians, health policy specialists and patient representatives to sit on our Expert Review Panels and Funding Committees to review applications submitted to us. Only with the expertise and commitment of our research community who participate in our independent peer review, can we continue to accelerate progress against cancer. For this we are extremely grateful.

Listed below are the experts in alphabetical order by surname who served on our Expert Review Panels in FY2021-2022.

Members of our Funding Committees who also served on Expert Review Panels may not all be included in this list. These members can all be found on the <u>relevant</u> committee page.
