

Oesophageal cancer (All histologies): 3-year survival by localised, regional, distant stages at diagnosis

Oesophageal
(All histologies)

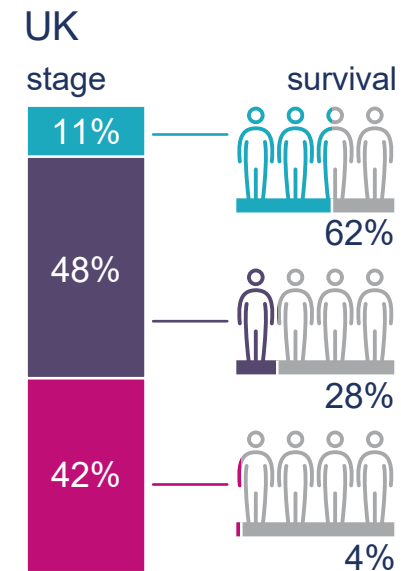

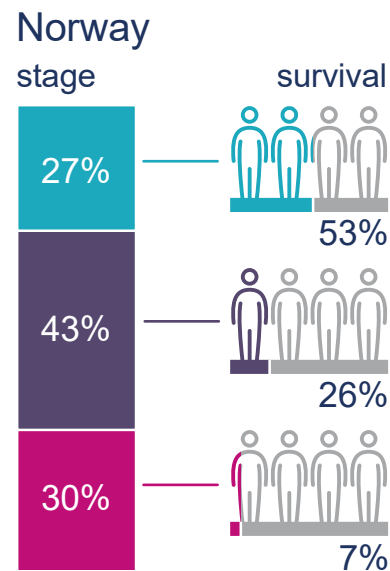

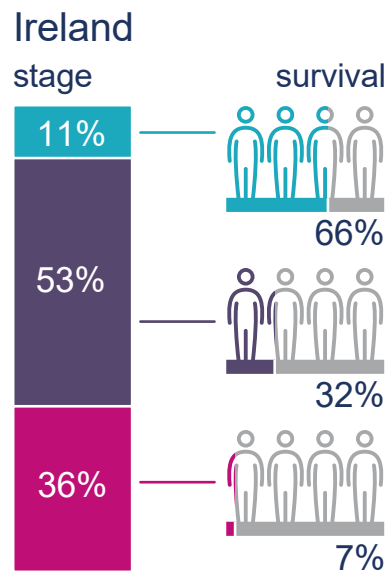

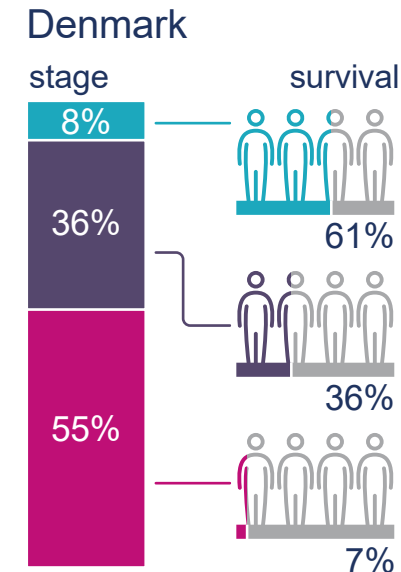

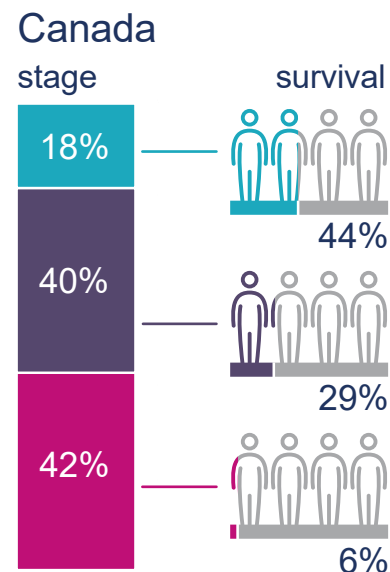

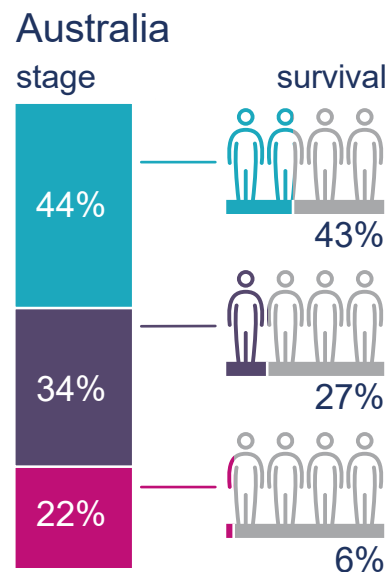

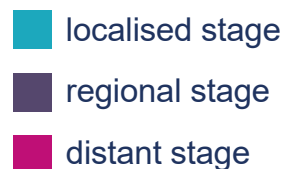

Oesophageal: Included Australia (New South Wales), Canada (Alberta, Manitoba, Newfoundland, Nova Scotia, Prince Edward Island, Saskatchewan), Ireland (2012-2013), Denmark, Norway and the UK (England, Wales, Northern Ireland). ICBP jurisdictions with missing stage at diagnosis data for more than half of all oesophageal cancer patients were excluded (Victoria, Western Australia, New Zealand, Scotland)

Oesophageal cancer (Squamous Cell Carcinoma): 3-year survival by localised, regional, distant stages at diagnosis

Oesophageal
(Squamous Cell
Carcinoma)

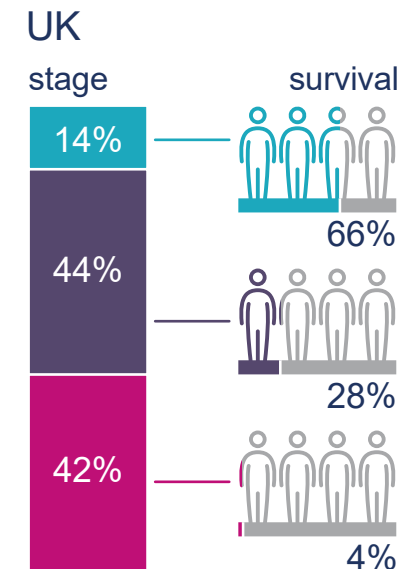

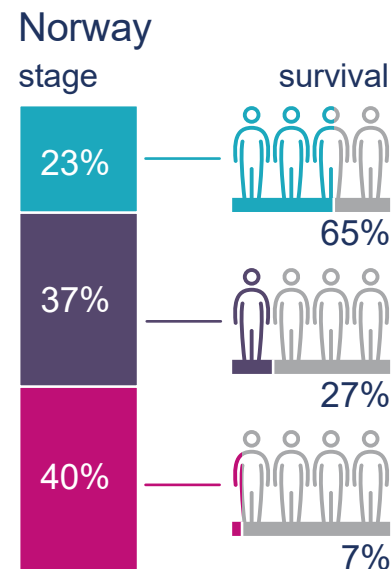

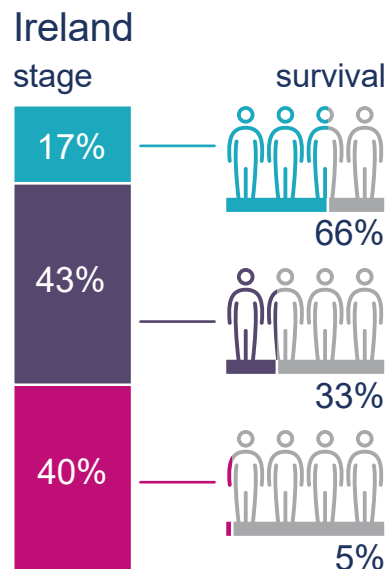

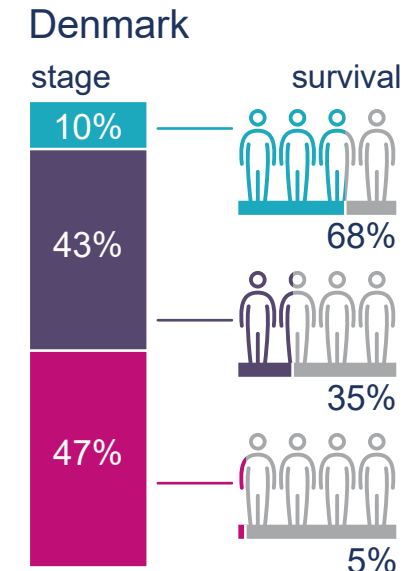

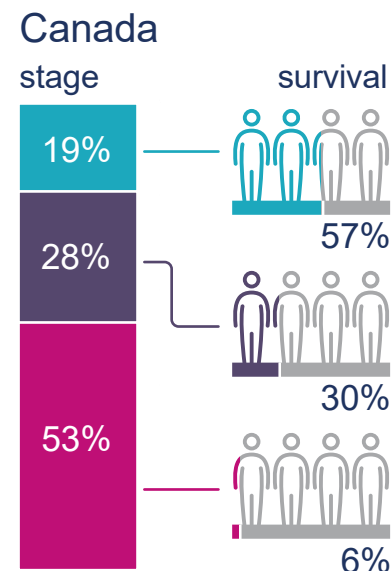

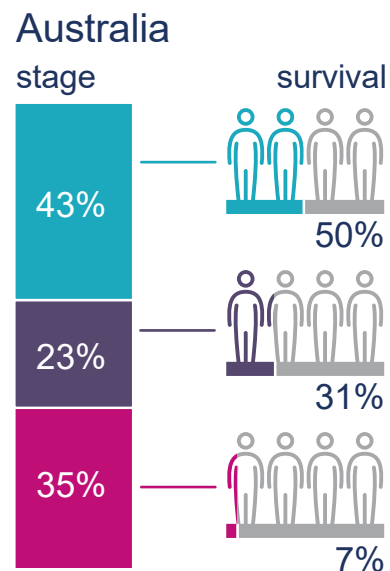

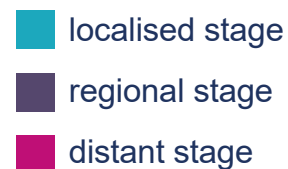

Oesophageal: Included Australia (New South Wales), Canada (Alberta, Manitoba, Newfoundland, Nova Scotia, Prince Edward Island, Saskatchewan), Ireland (2012-2013), Denmark, Norway and the UK (England, Wales, Northern Ireland). ICBP jurisdictions with missing stage at diagnosis data for more than half of all oesophageal cancer patients were excluded (Victoria, Western Australia, New Zealand, Scotland)

Oesophageal cancer (Adenocarcinoma) : 3-year survival by localised, regional, distant stages at diagnosis

Oesophageal (Adenocarcinoma)

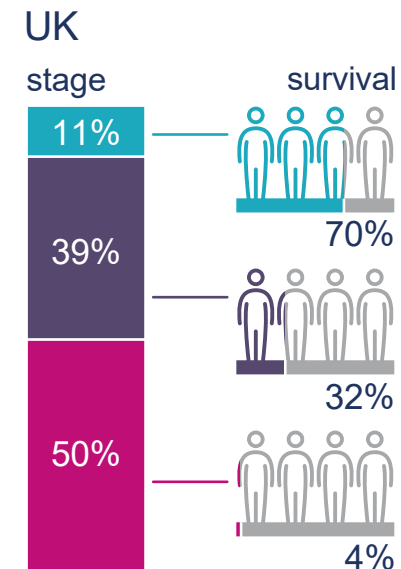

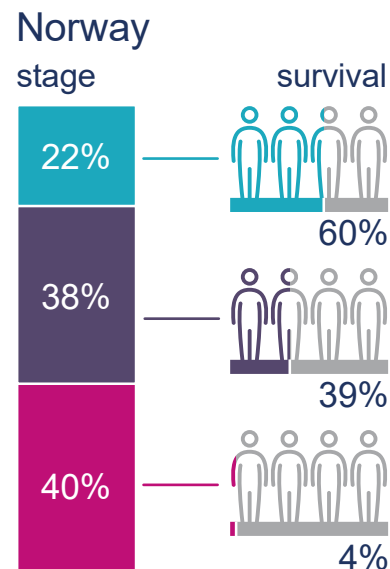

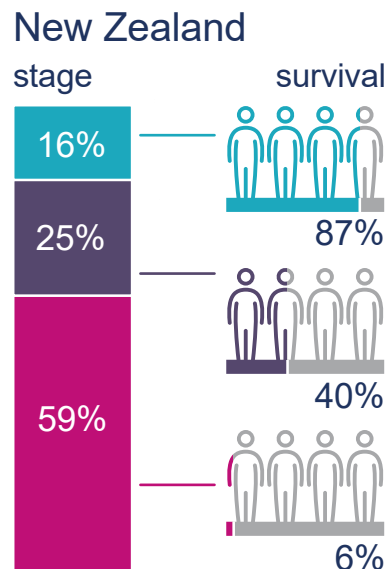

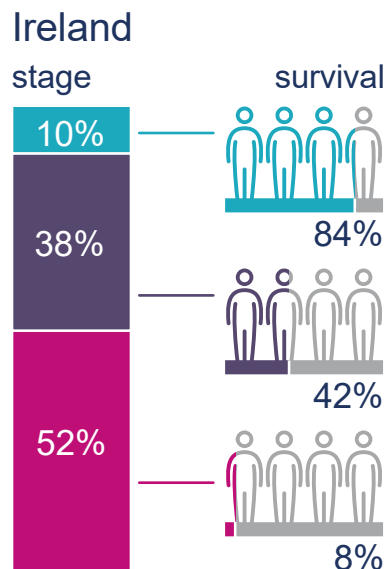

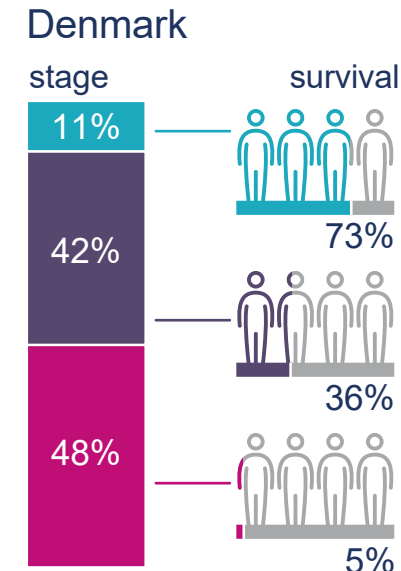

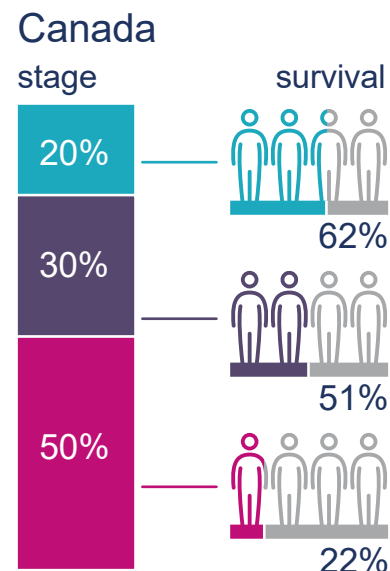

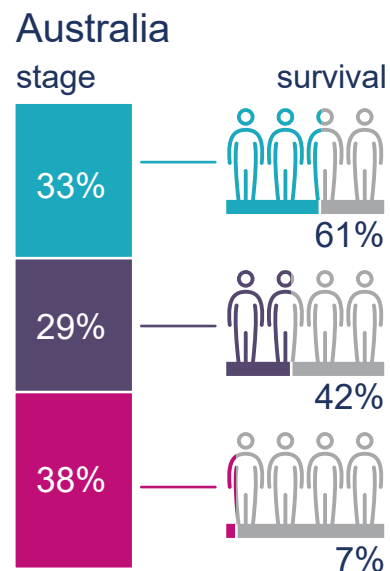

Oesophageal: Included Australia (New South Wales), Canada (Alberta, Manitoba, Newfoundland, Nova Scotia, Prince Edward Island, Saskatchewan), Ireland (2012-2013), Denmark, Norway and the UK (England, Wales, Northern Ireland). ICBP jurisdictions with missing stage at diagnosis data for more than half of all oesophageal cancer patients were excluded (Victoria, Western Australia, New Zealand, Scotland)

Gastric cancer (All histologies): 3-year survival by localised, regional, distant stages at diagnosis

Gastric
(All histologies)

localised stage
regional stage
distant stage

Gastric: Included Australia (New South Wales), Canada (Alberta, Manitoba, Newfoundland, Nova Scotia, Prince Edward Island, Saskatchewan), Ireland (2012-2013), Denmark, Norway and the UK (England, Wales, Northern Ireland). ICBP jurisdictions with missing stage at diagnosis data for more than half of all gastric cancer patients were excluded (Victoria, Western Australia, New Zealand, Scotland)

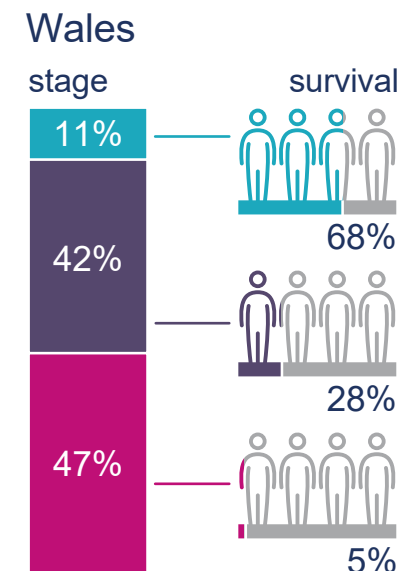

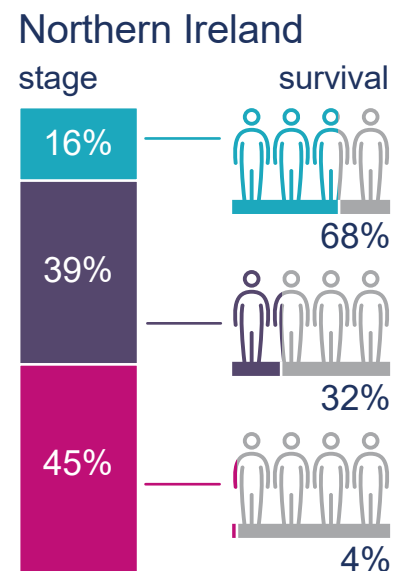

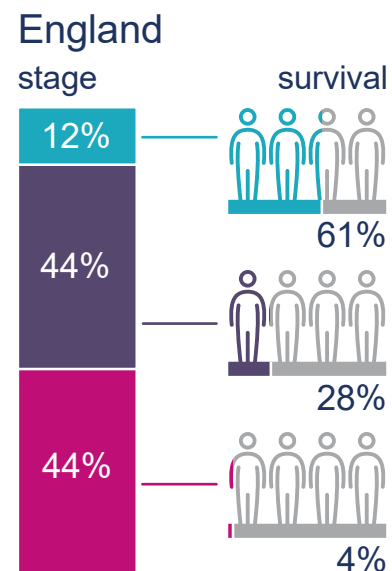

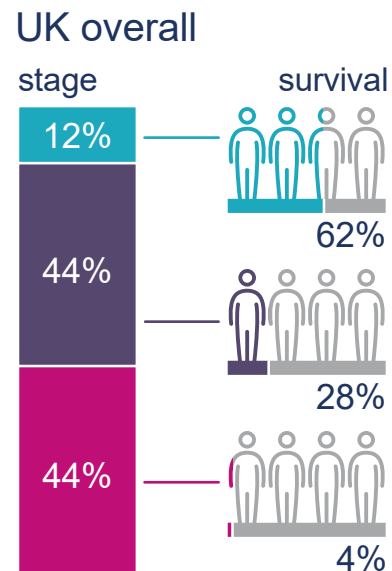

Oesophageal cancer (all histologies): 3-year survival by stages at diagnosis - UK

localised stage

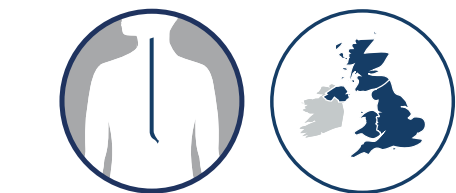

regional stage

distant stage

Oesophageal: ICBP jurisdictions with missing stage at diagnosis data for more than half of all oesophageal cancer patients were excluded (Scotland)

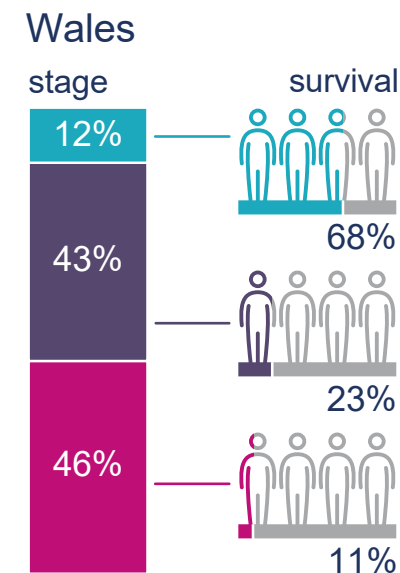

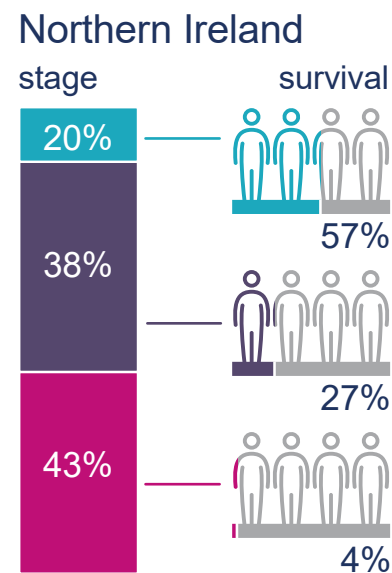

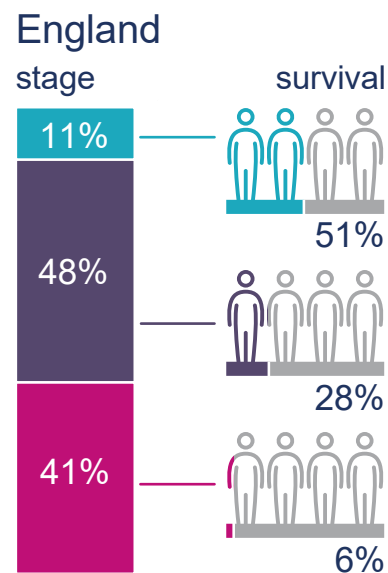

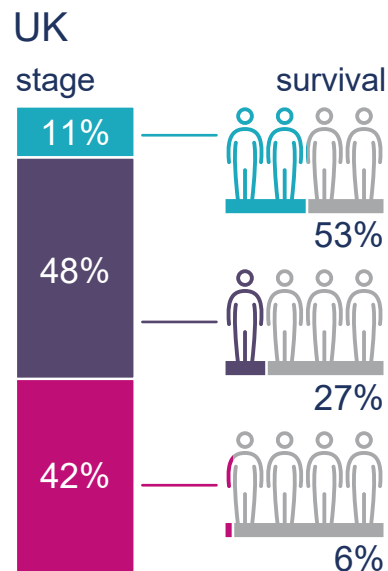

Oesophageal cancer (Squamous Cell Carcinoma): 3-year survival by stages at diagnosis - UK

Oesophageal
(Squamous Cell
Carcinoma)

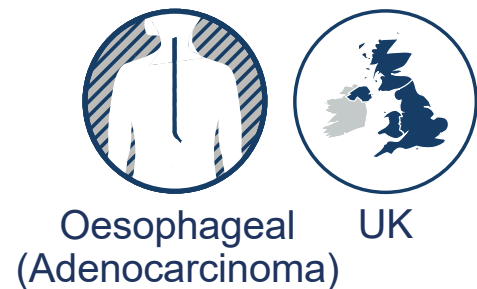

UK

- localised stage
- regional stage
- distant stage

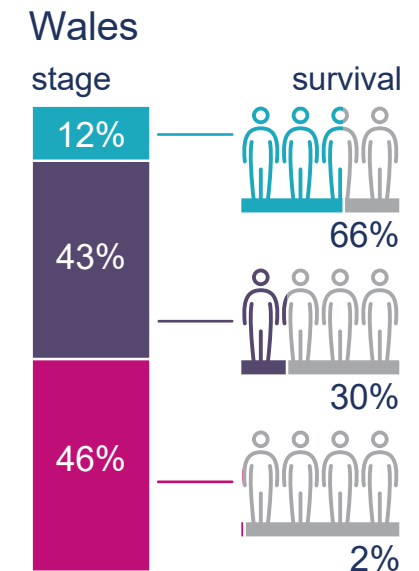

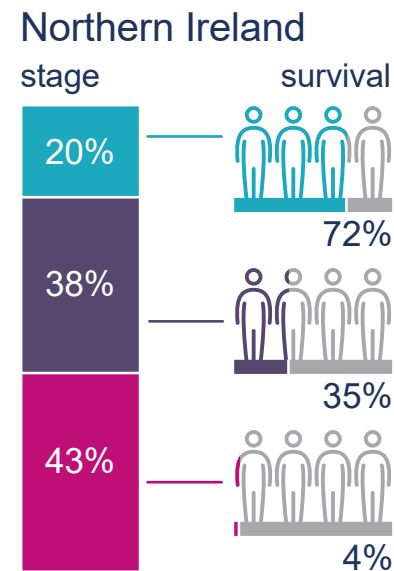

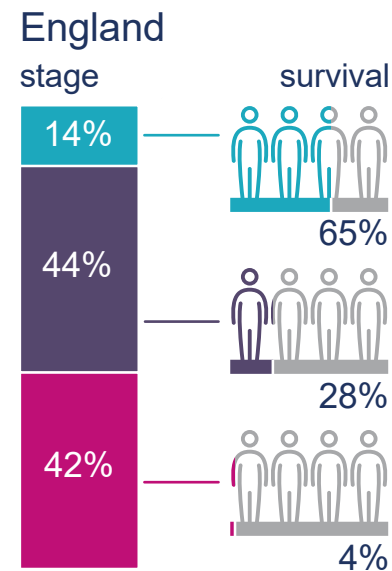

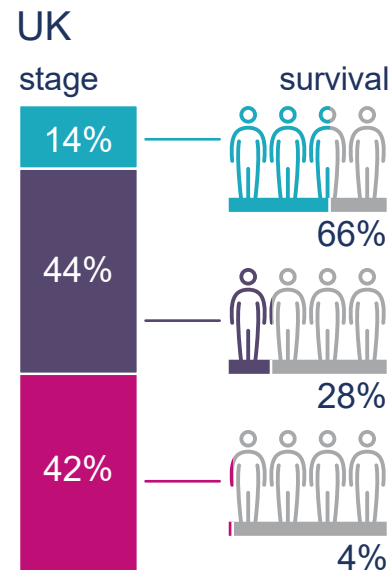

Oesophageal: ICBP jurisdictions with missing stage at diagnosis data for more than half of all oesophageal cancer patients were excluded (Scotland)

Oesophageal cancer (Adenocarcinoma): 3-year survival by stages at diagnosis - UK

localised stage
regional stage
distant stage

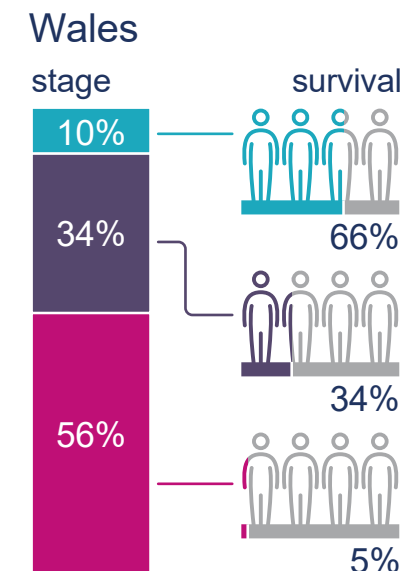

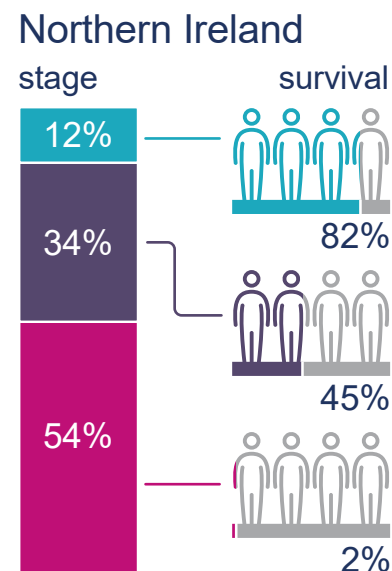

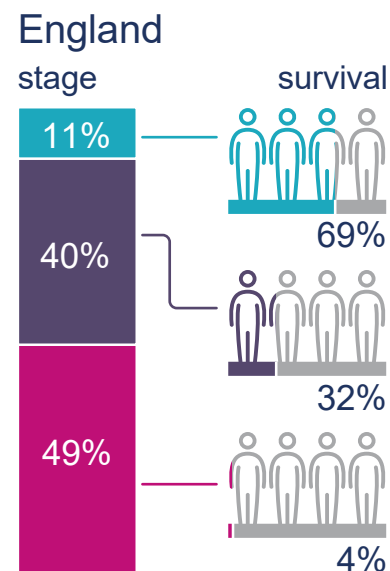

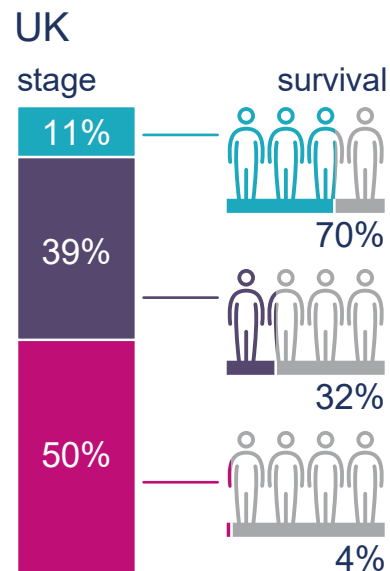

Oesophageal: ICBP jurisdictions with missing stage at diagnosis data for more than half of all oesophageal cancer patients were excluded (Scotland)

Gastric cancer (all histologies): 3-year survival by stages at diagnosis - UK

- localised stage
- regional stage
- distant stage

Gastric: ICBP jurisdictions with missing stage at diagnosis data for more than half of all gastric cancer patients were excluded (Scotland)
