

EvoScient Probiotic For Her

All the probiotics she needs in one capsule.

- 25 Billion CFU/10 Proven Strains
- Made to support common feminine issues with yeast and vaginal pH levels*
- Designed to help balance both the vaginal and urinary tract flora*
- Multi-species, multi-strain formula also provides complete digestive and immune support*

Generally, probiotics are thought of as supporting a well-functioning digestive system and immune system.* Lesser known is that they are integral in supporting vaginal health.* The vaginal environment is a complex system that requires a delicate balance to maintain overall health and, equally important, comfort. That is why we have formulated a multi-species, multi-strain probiotic to mirror the diversity of flora necessary to maintain this balance.* Women are getting a formula that specifically delivers support throughout their digestive system, support to their immune system and balance to their vaginal flora.*

Delivering Balance and Comfort*

The probiotic combinations found in **EvoScient Probiotic For Her** have proven to strike the ideal balance between beneficial bacteria and yeast.* Studies with these strains consistently show a clinically significant reduction in yeast and coliforms in the probiotic group as compared to placebo.*

One of the most common sources of discomfort in the female urinary tract is a result of an imbalance and/or lack of *Lactobacillus* bacteria, which accounts for 90-95% of the beneficial bacterial count in the genitourinary tract in healthy women. Women can be confident taking this formula as it boasts 8 clinically researched *Lactobacillus* strains aimed at providing complete support to the urinary tract.*

Withstanding Challenges, Surviving the Journey

Typically, the conditions in the upper digestive system degrade beneficial bacteria and render them useless. However, the specific strains found in this formula, when challenged in both the acid and bile conditions, were proven to consistently show a 'very high' to 'extremely high' rate of survival - meaning these strains survive the harsh environment of the gut and reach the desired destination of the small and large intestines.

SUPPLEMENT FACTS

Serving Size 1 Capsule

Amount Per Serving

Stabilized Nondairy Probiotic Complex (25 Billion CFU)	128 mg
<i>Lactobacillus acidophilus, Lactobacillus plantarum, Lactobacillus reuteri, Lactobacillus crispatus, Bifidobacterium lactis, Lactobacillus gasseri, Lactobacillus paracasei, Lactobacillus rhamnosus, Lactobacillus brevis, Bifidobacterium longum</i>
