Adult Bridle

When NG tubes won't stay in place, Bridle affords clinicians valuable time to determine the most appropriate nutritional program for their patients. Easily placed by passing tiny catheter-mounted magnets, Bridle's clip grips the NG Tube to positively secure it in place. Early and potentially unnecessary PEG tube placements can be avoided. Available in 8-18FR sizes.

AMT BRIDLE™
72% reduction

Bridle Pro

Introducing the new AMT Bridle Pro™. AMT Bridle Pro is supplied with pre attached Pro clip or pre attached soft over moulded pro range clips. AMT Bridle Pro tubing uses advanced polymer materials creating a smaller surface area for ease of placement and easier cleaning. Suitable for adults and paediatric.

- Available for all tubes 5Fr - 18Fr
- AMT Bridle Pro has a 60% less surface area resulting in greater comfort.

“

The AMT Bridle™ is a useful tool in paediatric enteral nutrition and we would recommend it to other centres”

8-Feeding Sets are also used for Jejunal feeding with the **AMT G-Jet**

G-JET⁺

LOW PROFILE
GASTRO-JEJUNAL
ENTERAL TUBE

AMT G-Jet

The AMT G-Jet is a triple lumen feeding device which is used to help patients meet their nutritional needs by feeding directly into the small bowel whilst being able to vent the stomach at the same time.

Retention Balloon

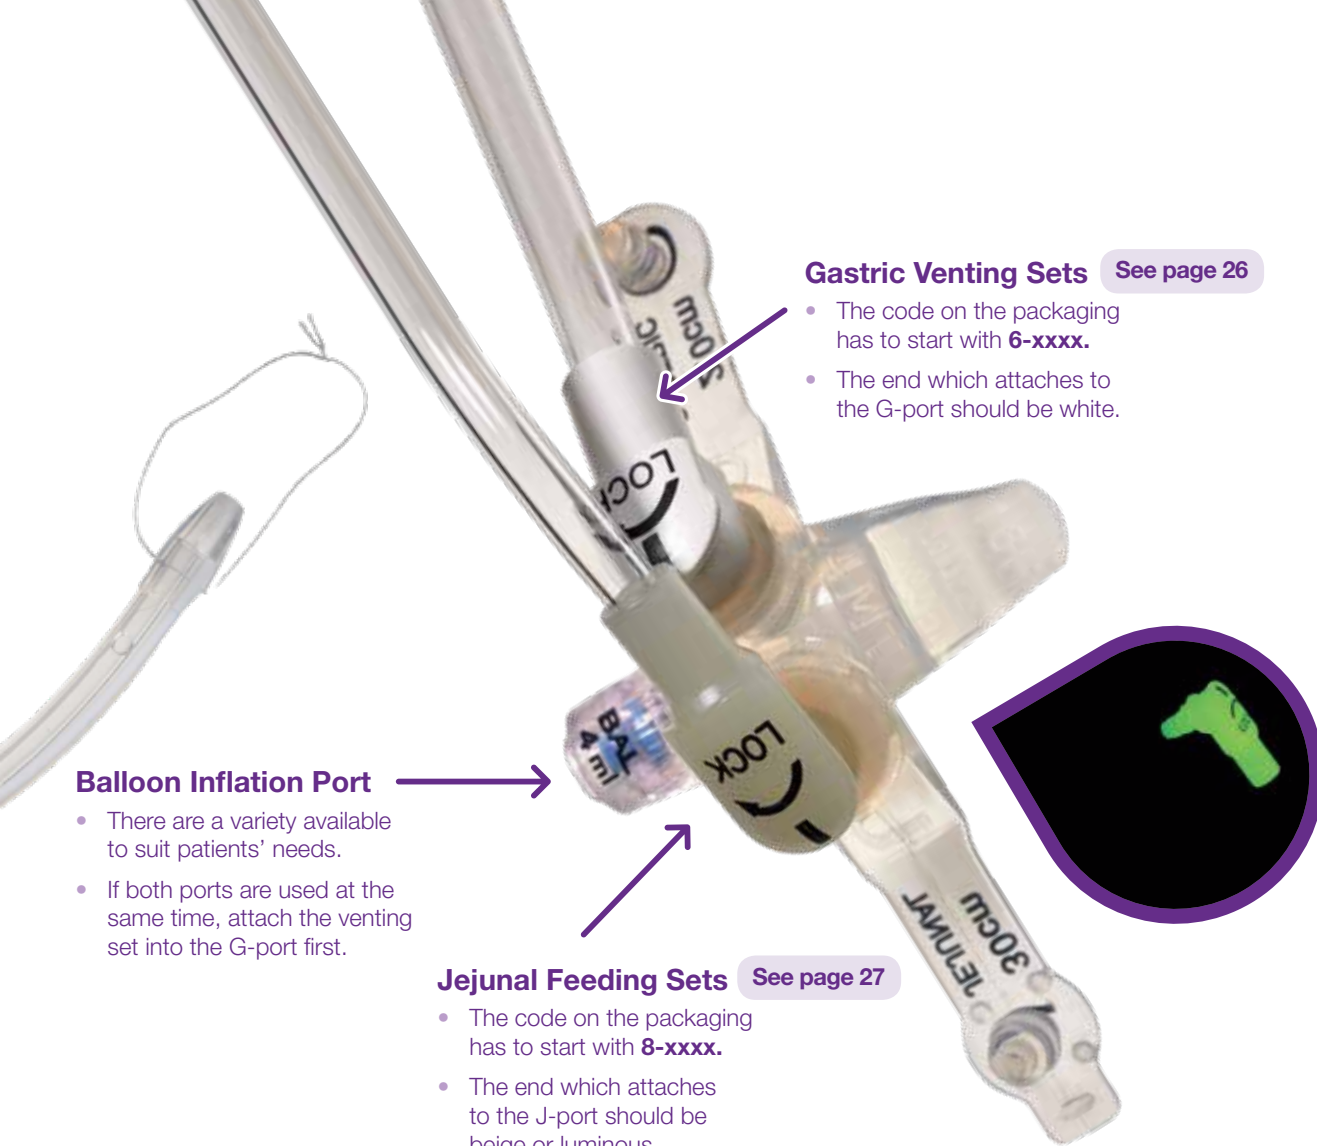

- In order to feed, give medication, or vent from the AMT G-Jet, a feeding/venting set needs to be attached.

ENPLUG

ENPLUG Stoma Plugs

ENPLUG are designed for emergency use to keep stomas from closing when a gastrostomy device has fallen out.

The ENPLUG packs are available in 2 different lengths and various French sizes in case the stoma has already started to close and the current French gauge tube no longer fits the stoma.
