

# SmartBox+ Introduction to: Warnings

This document introduces common SmartBox+ Warnings, for additional details visit: [SIMPAS.com/resources](http://SIMPAS.com/resources)

## Warnings:

When there is an issue with the system a full screen warning will be shown. All full screen warnings share a similar structure, with various text descriptions to describe the issue.

### Warning screen structure:

#### Row:

This text indicates the row impacted by the issue. If there are multiple rows impacted this is indicated in the following manner:

- Rows 1 to 6 impacted: 1-6
- Rows 1,3 and 6 impacted: 1,3,6

#### Channel:

This text indicated the product impacted. For SmartBox+, this value will always be 1

#### Warning Text:

This describes the issue occurring. The most common warnings are the following:

- No flow in multiple rows detected
  - Indicating a blockage issue
- Configuration mismatch detected!
  - Indicating a meter communication issue

#### Red Strikethrough Icon:

Touch this icon to ignore the warning until the next power down. Note, the issue will continue to occur.

#### Green Check Icon:

Clear the current warning. If the issue continues to occur, the warning will reappear
