

 DOORDASH for Business

DashPass for Employees

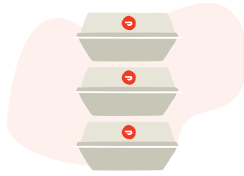

Add DoorDash's monthly subscription service to your food perks. Employees enjoy \$0 delivery fees and reduced service fees on every order.

Get the new wellness benefit your team will love.

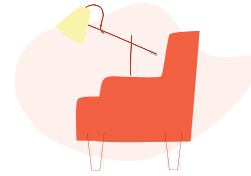

Attract & hire employees

Bolster your recruiting program with a food perk. 66% of employees who have access to free food at work are very happy with their job.

Keep retention high

With a unique meal perk, you can keep employees happy — saving on turnover costs that can total 20% of an employee's salary.

Offer a remote-friendly perk

DashPass for Employees is a versatile perk you can offer all employees, whether they work at home or in the office.

Here's what employees are saying:

"It's difficult for me to have dinner ready for my family on a daily basis. This benefit allows me to order food without worrying."

Attract and retain top talent

As organizations increasingly provide company-paid snacks and beverages, offer a unique food benefit that puts you ahead of the competition.

Save your employees money and more

DashPass users save an average of \$4-5 on every order while supporting local restaurants at any time — not just during work hours.

Here's how it works:

1

Select the number of subscriptions and send DoorDash a list of employee email addresses.

2

DoorDash provides you with marketing materials to advertise the new benefit internally and drive adoption.

3

Employees enroll in DashPass, enjoying \$0 delivery and reduced fees on every DoorDash order.
