# Group Orders for Your Team

Employees add their own dishes to the group's shopping cart, so your team can eat what they want together.

From team lunches to client meetings, make group orders a breeze.

### Choose from 500,000+ merchants

Get access to our industry-leading merchant selection of local favorites and national chains.

### Employees choose their own food

No need for someone to collect orders – employees easily add their item to the cart.

### Get quality meals with reliable delivery

Our Equipped Dashers make sure your meals are packaged well and delivered safely.

## Complex orders, made simple

Choose a restaurant, share the link with your group, and invite them to add their orders. You can even schedule orders in advance.

## Food brings your team together

Give everyone the chance to order exactly what they want at your next lunch and learn, team brainstorm, or client meeting.

### Here's how it works:

1

Plan your group order up to a week in advance and choose one or more restaurants.

2

Set a spending limit and delivery time, then share the unique link with your group.

3

Everyone chooses their own items and the order arrives labeled.
