

90s and newer

Newer cars can be collectible, too. We protect special, fun-to-drive cars from the '90s, 2000s, 2010s and newer for what they're actually worth, as long as they're used and cared for like collectibles.

Questions to ask:

- **How do you use it?**

We insure extra vehicles used for fun, not regular commuting.

- **What's it worth?**

Must be worth a minimum of \$3.5k.

- **What's the condition?**

Must be in very good or excellent condition.

Why protect it with Hagerty?

- **Freedom to drive**

No fixed mileage limit.

- **You'll get what it's worth**

With our Guaranteed Value® coverage, we agree on a value up front then pay that amount. Guaranteed.

- **Expert claims handling**

Our in-house claims team is trained in collector vehicle repair.

Recommend these extras to enthusiasts with newer vehicles:

- **Hagerty Drivers Club®**

Save money on car stuff (cleaning supplies, car covers, track days, to name a few) plus get invites to members-only events, an award-winning magazine and much more.

- **Traveling Collector coverage**

Special coverage for if there's an accident during a road trip, including money for car rentals, food and lodging, spare parts and tools, accidental death and more.

Talking points

- **Occasional drives to work are OK**

Daily usage doesn't qualify, but we want enthusiasts to have the freedom to drive their car to work on a nice day.

- **Newer cars we protect include convertibles, special editions, supercars and more**

If a '90s, 2000s or newer vehicle is well-cared for and is holding or going up in value, it probably fits our program.

See back side for examples.
