

# Specialized coverage for 1990 and newer vehicles

## Protection for the cars your clients love

These popular enthusiast vehicles include makes and models from the '90s to present day that are not driven daily and hold their value. Think convertibles, two-door sports cars, cars with big block V-8 engines, or vehicles that are rare and have limited production.

Examples of the most popular 1990 and newer vehicles we protect are listed below. [There are many more, and we're always adding to this list.](#)
