Distribution Operations Practices

Focus on sharing distribution operation practices, including companies discussing their specific actions to date

Tuesday, Mar 24, 2020

Bulk System Demand and Operations Impacts and Practices

Transmission control center practices with international companies discussing their specific actions to date, as well as updated demand and operational impacts from several systems across the globe.

Thursday, Mar 26, 2020

Distribution Operations Practices

2nd webcast focusing on sharing distribution operation practices, providing summary of information collected throughout the week as well as companies discussing specific actions to date.

Friday, Mar 27, 2020

T&D Operations Leadership Impacts and Practices

Aggregated insights from international Transmission and Distribution operators from engagements during the week – pandemic practices and demand/operational impacts.

Tuesday, Mar 31, 2020

COVID-19 Impacts and Practices Webcast: Distribution Operations Impacts

Insights from Distribution operators from across the globe sharing operational impacts and new pandemic practices

Wednesday, April 1, 2020

COVID-19 Impacts and Practices Webcast: Bulk System Operations and Demand Impacts

Insights from Transmission operators from across the globe sharing operational impacts, demand, and new pandemic practices

Thursday, April 2, 2020

COVID-19 Power Plant Impacts

Industry knowledge capture and shared best practices/processes for electric generating plants

Friday, April 3, 2020

COVID-19 Impacts and Practices Webcast: T&D Leadership-Operations and Demand Impacts

Aggregated insights from Transmission and Distribution operators from across the globe – pandemic practices and demand/operational impacts.

Wednesday, April 8, 2020

COVID-19 Impacts and Practices Webcast: Transmission and Distribution Operations Impacts

Insights from Transmission and Distribution operators from across the globe sharing operational impacts and new pandemic practices.

Thursday, April 9, 2020

COVID-19 Power Plant Impacts

Industry knowledge capture and shared best practices/processes for electric generating plants

Friday, April 10, 2020

COVID-19 Impacts and Practices Webcast: T&D Leadership Wrap-Up - Operations and Demand Impacts

Aggregated insights from Transmission and Distribution operators from across the globe – pandemic practices and demand/operational impacts.

Wednesday, April 15, 2020

COVID-19 Impacts and Practices Webcast: Transmission and Distribution Operations Impacts

Insights from Transmission and Distribution operators from across the globe sharing operational impacts and new pandemic practices.

Wednesday, April 15, 2020

Exploring How COVID-19 Is Shaping the Sustainability and ESG Dialogue

EPRI's Electrification & Sustainable Energy Strategy group is hosting a series of webcasts exploring the connection between COVID-19 and the broad categories of sustainability, worker safety, customer impacts and environmental science.

Thursday, April 16, 2020

COVID-19 Power Plant Impacts

Industry knowledge capture and shared best practices/processes for electric generating plants

Friday, April 17, 2020

COVID-19 Impacts and Practices Webcast: T&D Leadership Wrap-Up - Operations and Demand Impacts

Aggregated insights from Transmission and Distribution operators from across the globe – pandemic practices and demand/operational impacts.

Wednesday, April 22, 2020

COVID-19 Health and Safety

EPRI's Electrification & Sustainable Energy Strategy group is hosting a series of webcasts exploring the connection between COVID-19 and the broad categories of sustainability, worker safety, customer impacts and environmental science.

Thursday, April 23, 2020

COVID-19 Power Plant Impacts

Industry knowledge capture and shared best practices/processes for electric generating plants

Friday, April 24, 2020

COVID-19 Impacts and Practices Webcast: Transmission and Distribution Operations Impacts

Insights from Transmission and Distribution operators from across the globe sharing operational impacts and new pandemic practices.

Wednesday, April 29, 2020

Customer Impacts of COVID-19

EPRI's Electrification & Sustainable Energy Strategy group is hosting a series of webcasts exploring the connection between COVID-19 and the broad categories of sustainability, worker safety, customer impacts and environmental science.

Thursday, April 30, 2020

COVID-19 Power Plant Impacts

Industry knowledge capture and shared best practices/processes for electric generating plants

Friday, May 1, 2020

COVID-19 Impacts and Practices Webcast: Transmission and Distribution Operations Impacts

Insights from Transmission and Distribution operators from across the globe sharing operational impacts and new pandemic practices.

Wednesday, May 6, 2020

State of the Environment: Learnings to Date from COVID-19

EPRI's Electrification & Sustainable Energy Strategy group is hosting a series of webcasts exploring the connection between COVID-19 and the broad categories of sustainability, worker safety, customer impacts and environmental science.

Friday, May 15, 2020

COVID-19 Impacts and Practices Webcast: Transmission and Distribution Operations Impacts

Insights from Transmission and Distribution operators from across the globe sharing operational impacts and new pandemic practices.
