MATH ELECTIVE	3	ELECTIVE	3
ELECTIVE	3	ELECTIVE	3
TOTAL	15	TOTAL	15

Students must have successfully passed MTH 173 with a grade of C or better in order to be admitted into the Mathematics program upon arrival to WVU. This requirement is also necessary to complete other graduation requirements in a 4 year timeline.

Although MTH 291 Differential Equations is not equivalent to MATH 261 at WVU, students are encouraged to utilize their MTH Elective during the 4th semester to take MTH 291. The covered material will assist in the transition to the first semester at WVU where MATH 261 will be required.

The WVU General Education Foundations curriculum (GEF) includes eight areas (F1-F8). F1 (Composition and Rhetoric), F2 (Science & Technology), and F3 (Mathematics & Quantitative Skills) are specified above. These 3 Areas will be fulfilled by General Education requirements at Northern Virginia. Students must also complete 3 credit hours from each of the GEF Areas 4 through 7, and are encouraged to study the provided GEF chart to select electives that satisfy these requirements. By using the suggested plan of study above, students are able to fulfill this requirement prior to graduation from Northern Virginia Community College. Students not completing this requirement at NOVA will need to utilize ELECTIVE credit at WVU to do so.

The WVU GEF curriculum also includes 9 credits (normally 3 three-credit courses) of Focus coursework (F8), to help students capitalize on the range and diversity of courses offered at WVU. In order to maximize connections, incorporate additional competencies, and encourage true breadth of study, students must fulfill the Focus through completion of one of the following academic paths: (a) completion of a minor; (b) completion of a double major or dual degree, or (c) completion of 9 credits of additional coursework from the list of courses approved for GEF Areas F1 through F7. Northern Virginia students are encouraged to utilize ELECTIVE credit, and the GEF spreadsheet, to take courses that complete this requirement at NOVA. Northern Virginia

students following this pathway will only need to complete 2 additional GEF courses, as MTH 174 will satisfy the first portion of this requirement.

Students completing degrees in WVU's Eberly College of Arts and Sciences are encouraged to work with their advisors to integrate completion of an academic minor or minors into their programs of study, to the degree allowed within elective hours. WVU offers over 100 minors that complement major fields of study, build on students' unique interests, expand perspectives, and broaden skills. See <http://catalog.wvu.edu/undergraduate/minors/#minorsofferedtext> for a list of available minors. Northern Virginia students may begin completion of certain minors at NOVA by utilizing ELECTIVE hours to take courses equivalent to the minor's introductory requirements at WVU.

Students who have questions about admission into their intended program, GEF requirements, GEF Focus courses, minors, or any other issue relating to academics at West Virginia University should contact the Office of Undergraduate Education at WVU.

The above transfer articulation of credit between West Virginia University and Northern Virginia Community College, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
