Flagged items & Actions

2 flagged, 1 action

Flagged items

2 flagged, 1 action

Pool Maintenance / Daily Maintenance

Check and clean the filter and pump to make sure they're functioning properly.

Needs Attention

While the filter and pump are functioning during the time of maintenance, minor issues were found which have to be addressed as soon as possible to prevent them from causing major problems later on.

The pool pump has unusual noises and the filter causes the water flow to be a bit unstable at times.

Check the pool pump and filter during the weekend.

Pool Maintenance / Daily Maintenance

Check the filtration system to ensure proper water circulation.

Needs Attention

As mentioned in the 5th item of this checklist, the pool filter causes the water flow to be a bit unstable at times. A corrective action was already assigned in that item.

Other actions

0 actions

Pool Maintenance	2 flagged, 1 action, 12 / 14 (85.71%)
Daily Maintenance	2 flagged, 1 action, 12 / 14 (85.71%)

Check the pool pump and filter during the weekend.	
Test the water's pH and chlorine levels.	OK
Add sanitizer in small amounts to keep the free chlorine level at 1-3 ppm.	OK
Check the filtration system to ensure proper water circulation.	Needs Attention
As mentioned in the 5th item of this checklist, the pool filter causes the water flow to be a bit unstable at times. A corrective action was already assigned in that item.	
Check the filter if the water is noticeably dirty.	OK
Inspect the pool cleaner.	OK
Make sure all pool equipment is operated for an ideal time.	OK
Inspect the pool equipment, including the pump, motor, filter, heater, valves, and timers, for any signs of damage, leaks, or malfunctions. Repair or replace any faulty	OK

equipment as needed.

Clean the pool deck area and surrounding surfaces by removing leaves, dirt, and other debris.

Photo 3

Conduct a safety check of pool-related equipment and accessories (ladders, handrails, diving boards, pool covers, and lighting fixtures) to ensure they are in good condition and functioning properly.

Completion

Comments and/or Recommendations

The overall safety, cleanliness, and condition of the pool meet our minimum requirements. However, the pool pump and filter need to be checked this weekend to prevent costly problems later on.

A follow-up report is expected to be submitted next week once the corrective action is completed.
