Environmental Risk Assessment

What needs to be protected from harm?

We want to protect the nearby community from acquiring any health risks.

Hazard Characterization

	Please select potential risk present in the workplace	What are the possible effects?	Probability of exposure	Severity	Likelihood	Risk rating	What measures will you take to reduce the risk?	Who is responsible for what?
1	Other hazards	(1) Asbestosis (2) Mesothelioma	High	Major Injuries	Likely	High	Remove any asbestos-containing materials safely. Communicate asbestos hazards to workers. Use proper work practices and controls to limit exposures.	The Environmental Management Department
