

Pharmaceutical  
Consultancy  
Services

## Quality Assurance Services

PCS, founded in 1990, is the oldest training institute for the pharmaceutical- and medical devices industries in the Netherlands.

For over 30 years the company has supported some of the largest pharmaceutical organizations in the world with GxP consultancy and training services.

Our mission is: **'Sharing the Purpose of Quality'** we do this by focusing on your people, the patient and your process.

# People, Patient, Process

## Quality Assurance Services

PCS offers a full service package in Quality Assurance, if you are looking to upgrade your quality system, implement a new quality system or outsource the maintenance of your quality system, PCS has you covered.

### Our Services

We help both newcomers and established organizations. Whether you are outsourcing virtually everything or if you are an established pharmaceutical organization.

Our team of experienced consultants and ex-regulatory inspectors make sure that you get the support you need.

Our services include (amongst others):

- Setting up a brand new GDP or GMP quality system (including MAH requirements where needed),
- Upgrading your existing quality system,
- Decoupling a quality system from a corporate quality system,
- Implementing a corporate quality system from a local quality system,
- Quality As A Service, whereby PCS assumes full responsibility for maintaining and operating your quality system (especially for virtual wholesalers/importers),
- Interim Quality Assurance support,
- Interim Quality Management support to lead the upgrade of a quality system.

## Quality Assurance Services

PCS offers a full service package in Quality Assurance, if you are looking to upgrade your quality system, implement a new quality system or outsource the maintenance of your quality system, PCS has you covered.

### Quality As A Service

Our **Quality As A Service** allows you to focus on the business while PCS maintains your quality system. Our experienced consultants update your procedures, raise deviations, implement CAPA's and maintain oversight. We assume full responsibility over the correct functioning of your Quality Management System (QMS).

### QA Training

PCS is the oldest pharmaceutical training and consultancy institute in the Netherlands. We organize GMP & GDP training courses which are indispensable for Quality Assurance personnel, such as QA officers and QA managers.

- We work with a team of ex-regulatory inspectors, who constantly benchmark our choices and services.
- All-in-one solutions for manufacturers and importers of medicinal products, from regular manufacturing operations to virtual companies.
- Quality as a Service and staffing options allow you to focus on the business while we tend to your quality matters.
- 30+ years of experience in pharmaceutical manufacturing.
