Cambridge Open Equity Initiative

The Cambridge Open Equity Initiative is designed to support authors in low- and middle-income countries who wish to publish their research open access but can't access funding to do so. Over 5,000 institutions across more than 100 countries will benefit from the support offered by the Cambridge Open Equity Initiative. Our institutional partners are invited to contribute to the initiative. Each institution's cost to participate in funding the initiative is tiered and intended to enable institutions of all sizes to contribute. To express your interest in becoming a contributing institution and help break down inequities in academic publishing, please contact your local sales representative.
