A safer test day with biometrics

To help make your IELTS check-in quick and secure, we use facial scans for identity verification. This reduces delays and ensures accurate identification. Please review the terms and conditions before continuing.

Identity Document verification (IDV) System Testing:

1. An image of you and your identity document will be captured to compare and identify any inconsistencies ("Biometric Verification"). This assessment process will use automated facial recognition technology to enhance and streamline the identity verification process. Biometric Verification data collected may also be used to test the IDV system performance from time to time. Biometric Verification data will be encrypted and stored in secure servers and only used for the purposes outlined herein. The data will be retained for a period of 3 years from the date it is captured then securely deleted. Only authorized personnel will have access to your data.
2. We may disclose Biometric Verification data we collect to the IELTS support teams, or IELTS Partners for purposes consistent with the IELTS Privacy Policy and may disclose/receive the assessment or Biometric Verification data to/from other third

I hereby consent to the collection and use of my Biometric Verification data (including my facial image and identity document) as described above. I understand that this data will only be used for the purposes as set out above and will not be otherwise be disclosed or used for any other purpose.
