

# Consent Form for Minors

This Consent Form parts A and B must be completed by the test taker and the parent / guardian before the minor can take the test.

A minor cannot complete test day check procedures without a signed copy of this form.

This form must be brought and presented to the administrator on test day.

If a test taker is inadvertently permitted to sit the test without submitting the required consent form, their result may not be issued or may be cancelled. In such cases, the test taker may be offered an opportunity to re-sit the test.

The test centre will provide a chaperone. Apart from the examiner or special access facilitator, only the chaperone will be allowed in the speaking room with the minor.

Test Centre duty of care regarding the minor ends when the minor is returned to a responsible legal guardian after the test, or, in case a responsible legal guardian is absent, returned to the publicly accessible areas of the test location.
