NFC TICKET INFORMATION

Stadium tickets now use NFC technology – there are no QR codes or barcodes. Simply download your tickets for each game to your mobile wallet ahead of matchday.

- Go to the MU app and log in using the same details you used to purchase your hospitality.
- Select 'My United' then 'My Tickets'.
- If you are an iPhone user you can now add your tickets to your **Apple wallet**.

Important notes for Android users

- Make sure your NFC settings are switched **ON** in your phone Settings.
- Add your tickets to your **Google wallet**.
- If you are a Samsung user, make sure that your **Google wallet** is set as your default wallet in Settings > Apps > Default Apps > Tap & Pay.

X If you see a message on your ticket which says “**This is an NFC ticket**” or “**Turn on NFC**” this means your settings are **NOT** switched on.

✓ If you see a contactless NFC icon, your tickets are ready to be scanned on matchday.

How to scan your ticket:

On matchday, open your ticket from your **Apple wallet** or **Google wallet** and tap the **BACK** of your phone onto the scanner as you enter the stadium, the same as you would as if you paid with your phone at a shop.

Sharing tickets with guests:

You can forward tickets to guests within the app with just a few clicks so they can download their own tickets for independent entry. We have a range of handy video guides, [here](#).
