"A continuous data mobilization of Vietnam bryophyte
and lichen collections"

The visit to
Cryptogam collection,
Eger Herbarium (EGR)

26/9–15/10/2019

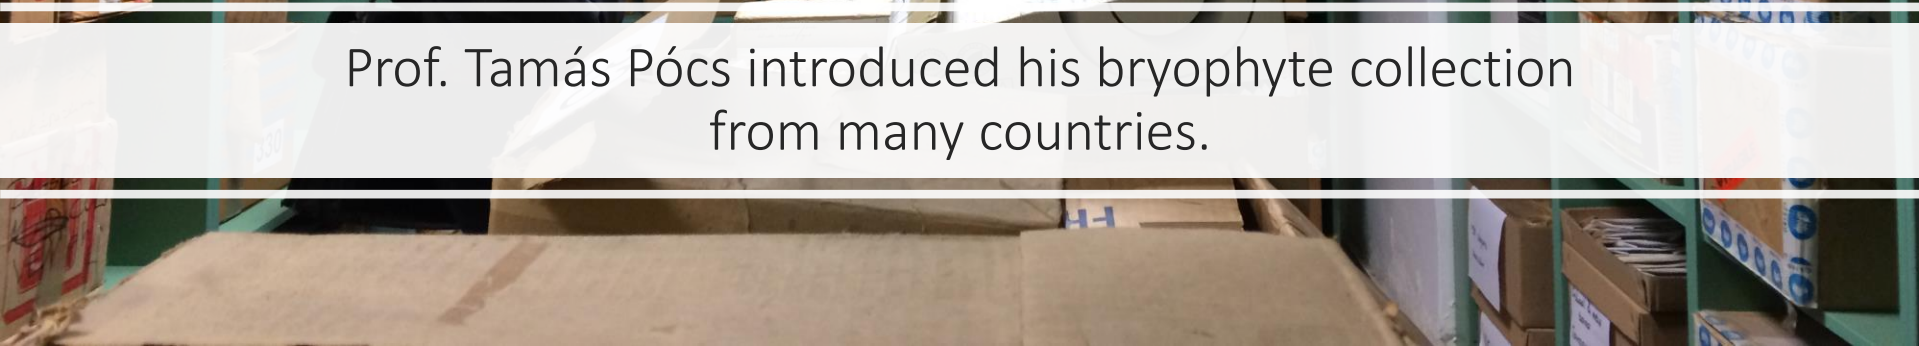

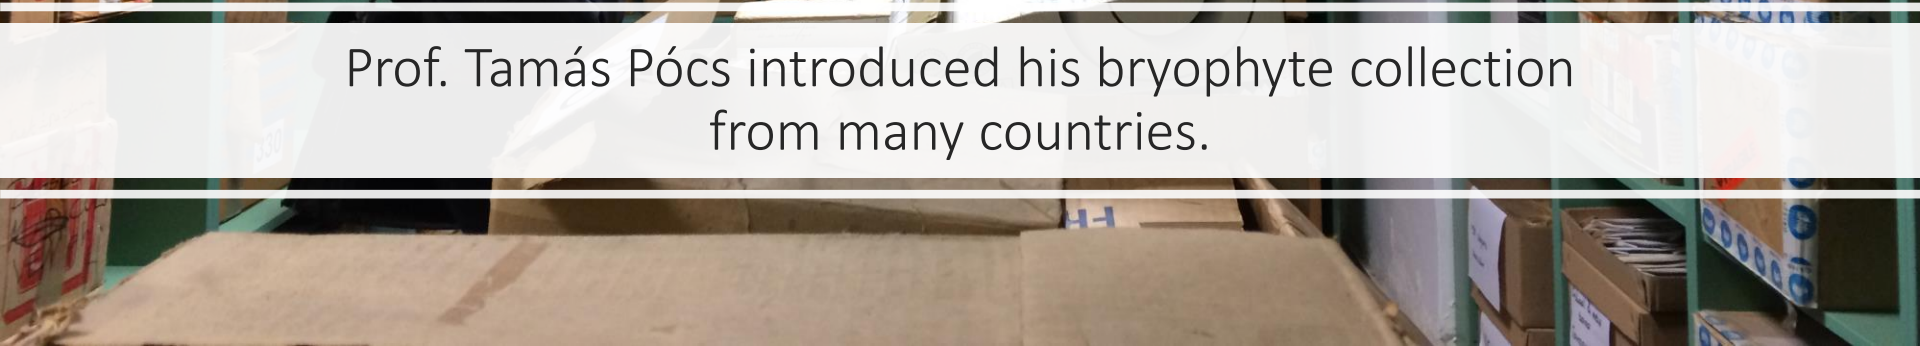

Bazzania vietnamica Pócs

anping ZHOU & Li ZHANG 周兰平 张力

-Oct. 2010

Botanical Garden

Prof. Tamás Pócs introduced his bryophyte collection from many countries.

346 The Vietnamese bryophytes collection

Old Vietnamese specimens collected by Prof. Pócs, unlabeled

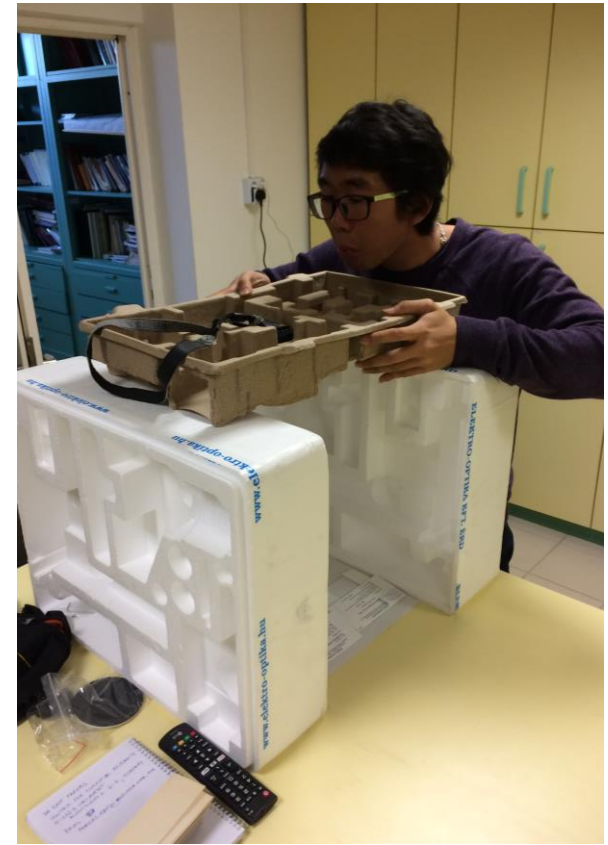

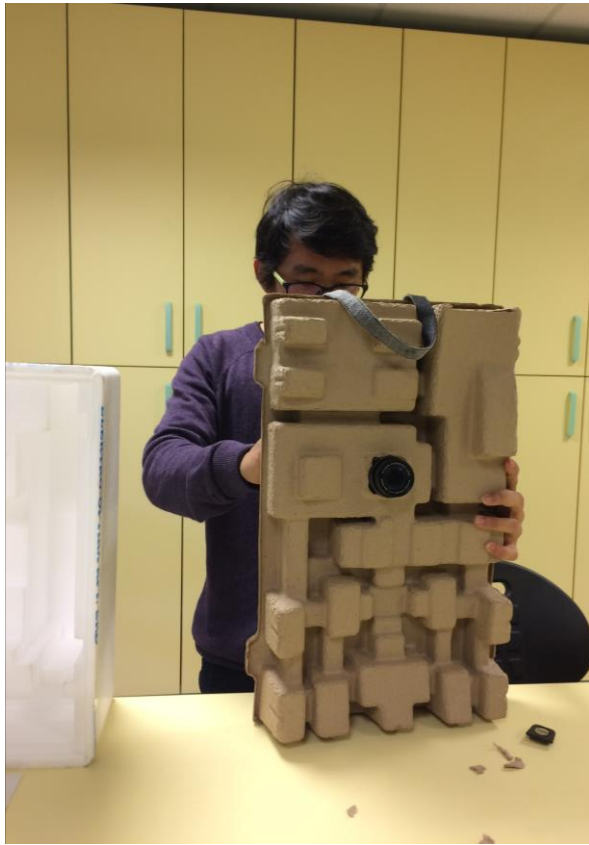

Old Vietnamese specimens collected by other collectors, such as Jeanplong, Bussiere, Topal, Petelot, etc.

Searching for specimens

Searching for Vietnamese lichens and
bryophytes in the main collection
(specimens on shelves)

“Handmade studio”
for photographing labels

Searching for Vietnamese bryophytes

Prof. Pócs was identifying
Vietnamese liverworts.

Dr. Sanna Huttunen was
identifying Vietnamese mosses.
