Published as peer-reviewed article

Connected to an online dataset @ GBIF

Data papers to describe dataset on freshwater organisms

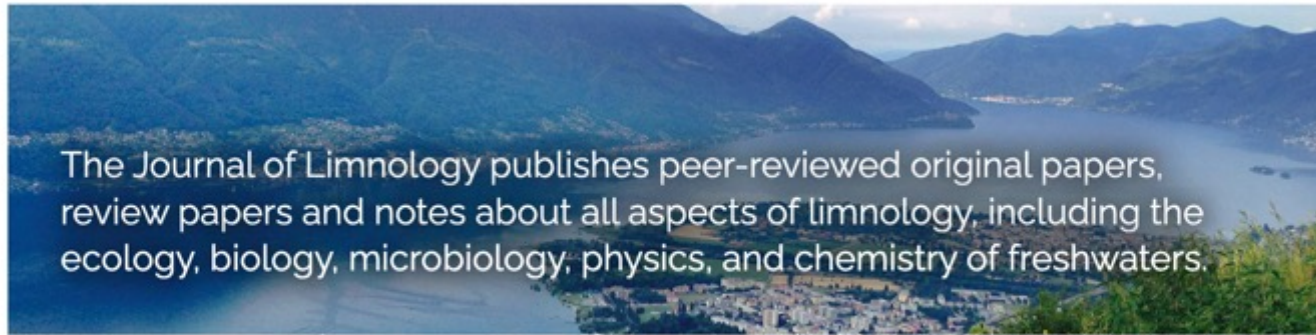

Clear geographic or taxonomic or any other thematic focus

Provided with all metadata to make data useful and usable

What to do

1. Produce the (georeferenced) dataset for GBIF using DarwinCore format
2. Prepare required metadata
3. Upload data and metadata to GBIF
4. Convert metadata to a datapaper, according to the author style of Journal of Limnology

[JOURNAL FLYER](#)[FOR AUTHORS](#)[SUBMIT YOUR PAPER](#)[Guide for Authors](#)[Benefits for Authors](#)

- with clear research relevance for species inhabiting or dependent on freshwater habitats
- with more than 5,000 presence records new to GBIF.org
- with high-quality data and metadata
- published either under an open CC0 designation or a CC BY 4.0 licence

The deadline for submissions is 15 December 2022.
