

Global Biodiversity Information Facility SPREP & Participants Networking Lunch  
18 November 2023  
SPREP Fale  
Vailima Apia Samoa

**Facilitators:** Bradley Myer (Project Manager) and Wayne Asera (PRISMSS ITAO)

During the final day of the *Biodiversity Information for Development Pacific Workshop and Regional Meeting*, key SPREP staff joined the participants of the workshop for networking lunch. The event provided an opportunity for participants and SPREP staff to connect and discuss training and data-sharing experiences from the training.

Project Manager Bradley Myer delivered an address to invite SPREP staff and workshop participants. This was followed by a presentation from Wayne Asera on the user manual for publishing available on the updated *Batter Series* on how to publish data, together with a brief presentation on *Pacific Biodiversity Information Facility*.

Present at the event were members from:

- The Environmental Monitoring and Governance Team SPREP Programme is tasked with the development and implementation of frameworks and processes for improved environmental governance, planning, monitoring, and reporting,
- team members from the Knowledge Management and Information Team,
- Members from the Islands and Oceans and Ecosystems Programme
- Monica Gruber of Pacific Biosecurity
