## Participants

### Living Atlases

Institution	GBIF page	Country	Language	Status
Atlas of Living Australia		Australia	English	In production
Canadensys		Canada	English - French	In production
CRBio		Costa Rica	Spanish - English	In production
GBIF Benin		Benin	French	In progress
GBIF France		France	French	In production
GBIF Spain		Spain	Spanish	In production
GBIF Sweden		Sweden	English - Swedish	In production
GBIF Portugal		Portugal	Portuguese	In production
Instituto Chico Mendes de Conservação de Biodiversidad		Brazil	Portuguese	In production
National Biodiversity Network Atlas		United Kingdom	English	In production
National Biodiversity Network Atlas - Scotland		Scotland	English	In production
National Biodiversity Network Atlas - Wales		Wales	English - Welsh	In production
Sistema Nacional de Datos Biologicos		Argentina	Spanish	In production
University of Tartu		Estonia	Estonian	In progress
		Philippine		In discussion
		Germany	German	In discussion
GBIF Andorra		Andorra	Catalan	In progress

# Portals in production

# Communication

## Mailing List

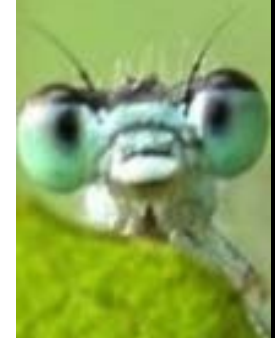

- ala.portal@lists.gbif.org
- Registration: <http://lists.gbif.org/mailman/listinfo/ala-info>

## HipChat Room (for developers)

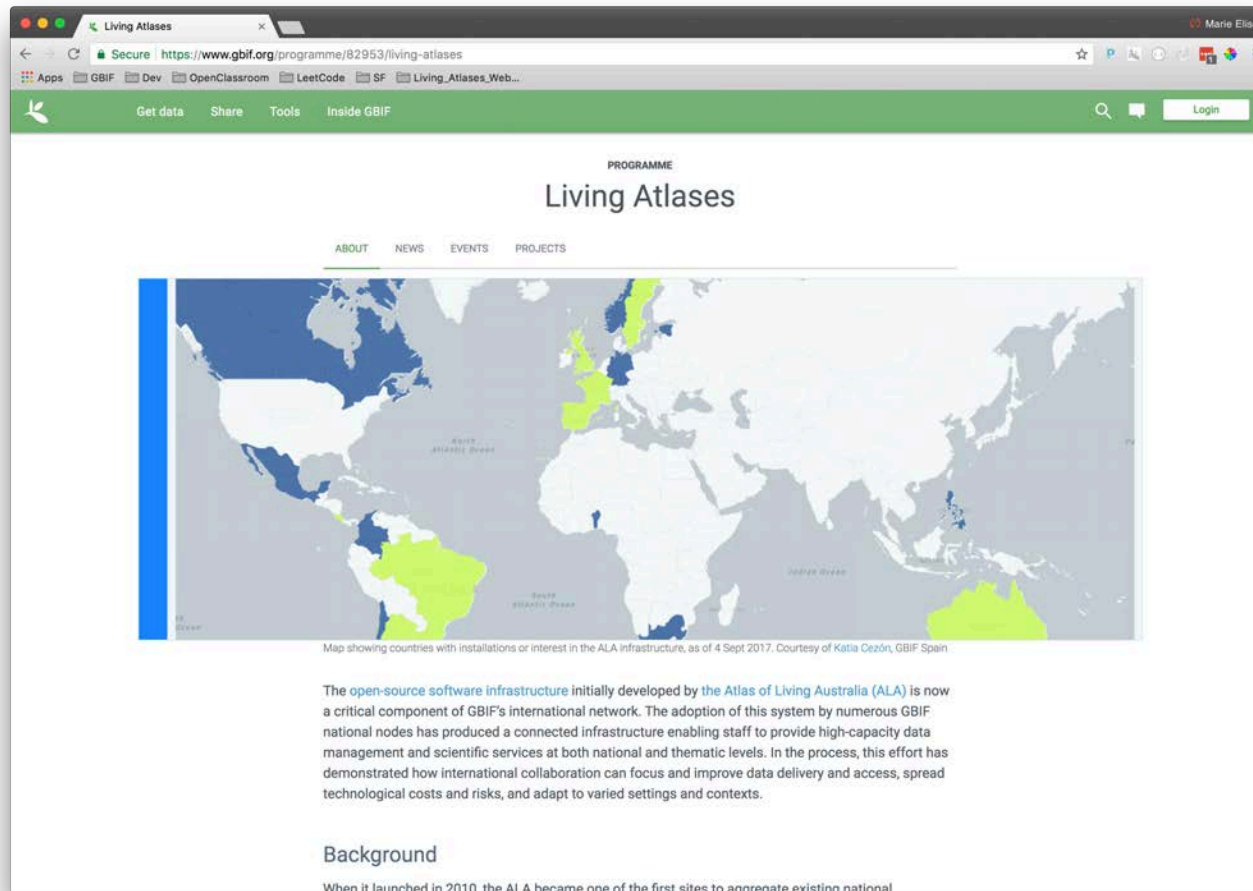

- Public access: <https://www.hipchat.com/gx1ej3K6Q>

## Documentation

- *ALA Key Technical Document*  
<http://www.gbif.org/project/2015-ala-internationalization>
- *ALA GitHub folder (documentation wiki)*  
<https://github.com/atlasoflivingaustralia/documentation/wiki>

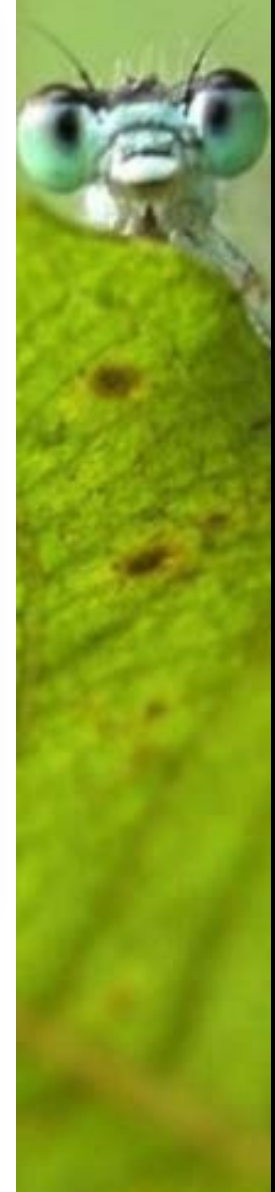

# GBIF Program page

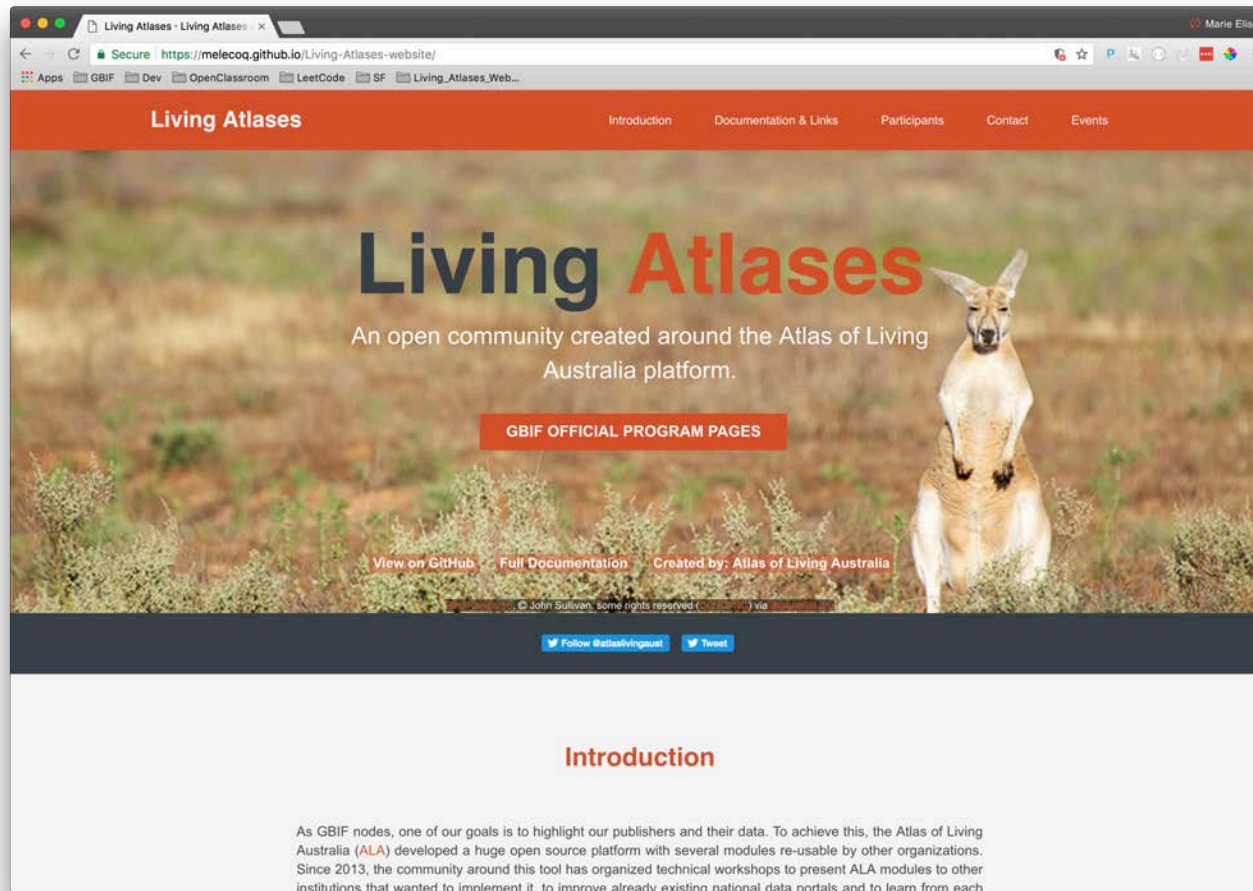

The screenshot shows a web browser window with the URL <https://www.gbif.org/programme/82953/living-atlases>. The page has a green header with navigation links: Get data, Share, Tools, Inside GBIF, and a Login button. The main content area is titled "PROGRAMME Living Atlases" and includes sub-navigation links: ABOUT, NEWS, EVENTS, and PROJECTS. A world map is displayed, with countries highlighted in blue and yellow to indicate installations or interest in the ALA infrastructure. Below the map, a caption reads: "Map showing countries with installations or interest in the ALA infrastructure, as of 4 Sept 2017. Courtesy of Katia Cezón, GBIF Spain". A paragraph of text follows, explaining that the open-source software infrastructure initially developed by the Atlas of Living Australia (ALA) is now a critical component of GBIF's international network. The text describes how the adoption of this system by numerous GBIF national nodes has produced a connected infrastructure enabling staff to provide high-capacity data management and scientific services at both national and thematic levels. It also mentions that this effort has demonstrated how international collaboration can focus and improve data delivery and access, spread technological costs and risks, and adapt to varied settings and contexts. Below this text is a section titled "Background" with the beginning of a paragraph: "When it launched in 2010, the ALA became one of the first sites to aggregate existing national".

# Living Atlases community

<https://living-atlases.gbif.org>

**CESP Project :**

- CESP Regional event to organize the 1-week workshop in Feb 2018 in Madrid.
- CESP Mentoring between Canadensys and GBIF France to help open the community to French-speaking countries.
- CESP Mentoring between GBIF Benin and GBIF France to install the Beninese data portal based on ALA

**TDWG 2018 :**

- 1-session workshop around Atlas of Living Australia tools with demonstration

**Collaboration**

- GBIF Argentina has begun to help installing ALA in Colombia.
- GBIF Spain has begun to work on the installation of the ALA portal in GBIF Andorra and GBIF Luxemburg.

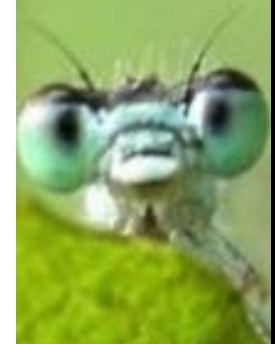

# Project call 2018/2019

## CESP calls:

- CESP “Usage of the Canadensys and GBIF data portals: how to prepare your data, and reuse them on national and international platforms” between Canadensys and GBIF Spain (workshops).  
Accepted
- CESP between GBIF France and GBIF Togo to install the Beninese data portal based on ALA.
- CESP Living Atlases community with two focus:
  - Documentation in form of video tutorials and exercises in different languages.
  - Regional event to organize the 1-week workshop between April – June 2019 in France.

Accepted

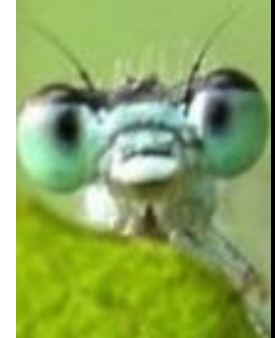

## Future...

**More technical workshops** (at least one per year) focused on different modules of the platform (Species list, Spatial, etc.) and for different levels (beginners and advanced)

**More GBIF participants will launch their portals in production:** Andorra, Benin, Luxembourg, Mexico, etc.

**Improvement of the communication** between participants (project calls, helpdesk, bug report, etc.)

**Answer project calls** to fund ours technical workshops.

# Thank you !
