

Details of datasets published on GBIF site

Data are mobilized from data holdings and published on GBIF site. A total of 49,244 occurrence data were published out of the 100,000 occurrences planned in the framework of the project. The table below provides details on the datasets published

Table: Details of datasets published on GBIF site

Dataset titles	Number of records	Means of discovery	DOI	Date of publication
Census of avian richness of the Parc du W Bénin (First part)	5229 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/4wtpbd	September 26, 2021
Census of avian richness of the Parc du W Bénin (Second part)	4691 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/hkdk5y	September 27, 2021
Census of avian richness of the Parc du W Bénin (Third part)	4616 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/ta8b3w	September 27, 2021
Census of avian richness of the Parc du W Bénin (Fourth part)	4164 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/4wdnkc	September 27, 2021
census of plant species from sacred forests of south-Benin in 2013	1225 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/ne6cqc	OCTOBER 29, 2021
Census of bird species carried out in Ramsar 1018 and 1017 sites of Benin	1387 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/z2qevh	DECEMBER 7, 2021
Study of specific plant diversity in forest reserves and riparian areas in Benin	8488 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/yx8ay6	DECEMBER 9, 2021

Dataset titles	Number of records	Means of discovery	DOI	Date of publication
Occurrences of neglected tropical disease vectors identified during medical consultations at Mènontin Hospital	4258 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/7kymun	November 11, 2021
Diversity of plant species of great importance: the case of <i>Adansonia digitata</i>	3927 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/bra4ur	November, 13 2021
Spatial distribution of <i>Mansonia altissima</i> in the context of climate change in Benin	343 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/cxxgt3	December 7, 2021
Impacts of climate change on <i>Vitellaria paradoxa</i> in Benin	211 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/cncdns	December 7, 2021
Vectors and pathogens responsible for Lymphatic Filariasis	538 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/npau6r	December 8, 2021
Floristic diversity of the protected areas of the Lama, Agrimey and Djigbe in the southern of Benin	140 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/khxx6g	December 16, 2021
Occurrences data collection of <i>Schistosoma haematobium</i> (Bilharz, 1852), <i>Schistosoma mansoni</i> (Sambo, 1907) and theirs vectors for spatial distribution and ecological niche modeling.	1692 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/d2q8f6 ;	December 16, 2021
Inventory of species trees of <i>Terminalia superba</i> Engler and Diels in the Forest of Niaouli, Pobe, Bonou and Itchede-Toffo in Benin	807 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/qdkw92	December 16, 2021

Dataset titles	Number of records	Means of discovery	DOI	Date of publication
Tree species occurrences of <i>Bombax costatum</i> Pellegr. & Vuillet collected in five communes of Benin	458 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/erbswh	December 16, 2021
Census of plant species from sacred forests of south-Benin in 2013 (Part 2)	888 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/fte6bg	DECEMBER 27, 2021
Study of specific plant diversity in forest reserves and riparian areas in Benin (Part 2)	6188 OCCURRENCES	URL on GBIF site	https://doi.org/10.15468/b4b24a	DECEMBER 27, 2021
