REPORTING ON THE STAKEHOLDERS VIEW, OF VANUATU BEING PART WITH GBIF

There was a session during this workshop, that stakeholders were asked to discussed three Questions

(i). *Type of Biodiversity Data _ Available Data are listed on the above table*

(ii) *Use of Data*

(iii) *Perspective on GBIF*

DEPARTMENT	USE OF DATA	PERSPECTIVES OF VANAUTU, CONTRIBUTING TO GBIF
Department of Lands	Data provided, contributes to decision making within this department	Since Vanuatu has a national tool in place already, "The National Geospatial Data Policy" https://mol.gov.vu/images/docs/Land-policy/The_National_Geospatial_Data_Policy_2020-2030.pdf Is already a pathway that will guide Data holder on how to manage their data. Therefore, Lands will agree that Vanuatu should go ahead and signed the MOU with GBIF
Department of Statistics	<ul style="list-style-type: none"> • Help Vanuatu Government to make decisions, especially the productive sector, to apply for more funding, subsidy • Help farmers 	Agriculture Census is a published Report (Public Report) that can be uploaded to GBIF
	<ul style="list-style-type: none"> • Helps the department to record all flora Species of Vanuatu • Forest Cover (Emissions & Removals) <p>Helps with decision making</p>	Data shared will help with decision making, for Policy & Laws, for Reforestation, protections of sites and for marketing purposes.
DEPC	<ul style="list-style-type: none"> • Reporting Obligations to regional & International Conventions 	Should Share Data, but should be categorised.

Funded by [The European Union](#) and [GBIF](#)

	<ul style="list-style-type: none"> • Management Plan Documentations • Strategies & Policy • Funding • Decision making • 	
University of the South Pacific (USP)	<ul style="list-style-type: none"> • Educational Purposes (enhance students' knowledge taking 200 level coursed, for Biology_ Animal Science) • Research Purposes 	<p>There is support from USP for Vanuatu to have an MOU with GBIF. Due to the following reasons</p> <ul style="list-style-type: none"> • One stop shop for all data's_ relevant to students of Vanuatu studying overseas • Provide baseline for Researches •
VFD	<ul style="list-style-type: none"> • Seek funds to assist with implementation plan for Invasive Species • Reduce Hassle of Seeking Donors 	Agreed but MOU signed to guide data sharing

Funded by [The European Union](#) and [GBIF](#)
