Wakura Onsen Area

We asked a fishmonger

Why is Noto fish so delicious?

The waters of Nanao on the Noto Peninsula are an excellent fishing ground, formed by the convergence of warm and cold currents and a ground water system full of minerals from the Tateyama mountain range. We do our utmost to ensure that the seasonal seafood, nourished by the 'natural pond' of Nanao Bay, stays fresh once caught. Come and try Nanao fish in season—it's the freshest of the fresh!
