

GRANTS MANAGEMENT

Enhance Your Workforce, Advance Your Career.

Federal grants program management involves 900 programs in over 26 grant-making agencies, providing over \$500 billion annually in financial assistance. Since grants management has evolved in a decentralized manner, the subject can be daunting to master. Graduate School USA is committed to providing a results-oriented grants management curriculum for grants providers and recipients that helps you master this complex subject.

Our curriculum is built to help grants managers and their staffs meet presidential initiatives designed to:

- reduce costs
- improve customer service and
- increase standardization/streamlining of business processes and technologies.
