Tuition Centers & Influence

Influence is the capacity to have an effect on character, development or behaviour of someone or something, or the effect itself.

The little budding stars in our 22 Tuition centers in Telangana/Andhra Pradesh are influencing their life, parents, family and the community. Lets listen to them...

Great and sincere efforts are being taken by the teachers and the coordinators to provide quality education to the Chenchu children in 22 villages of Andhra Pradesh and Telangana under Bless Chenchu Initiative to uplift the hidden tribe. 762 children are impacted and we see a significant change in their very personal lives. The tuition centers are more than a blessing, they are providing overall development.

We would like to thank the “Vishwa Vani New Zealand Trust “ and wonderful God’s people for your prayers and generous support.

May the LORD cause you to flourish, both you and your children.

May you be blessed by the LORD, the Maker of heaven and earth.
