Price Guide

Everything you need to know
about our bundles.

Version 3
October 2023

Our Bundles

You can enjoy using our green network by choosing any of our bundles! We offer 30-day rolling contracts which give you with the flexibility to change your bundle whenever you need. If you wish to increase your usage allowance, we'll give you the opportunity to do so also, by migrating your account to a bigger bundle.

Extra benefits of having an Ecotalk SIM include:

- Notifications telling you how much of your monthly minutes, texts and data allowance is remaining
- Credit limits on your account to help you control what you spend over your allowance each month
- You can use your data allowance as a personal hotspot in the UK
- 5G at no extra cost (dependant on a 5G enabled device in a 5G area)

What are the costs outside my bundle allowance?

If you use up all of your allowance, you can still make calls, send messages and use data, but these will be charged at the rates outlined below. Please be aware that you'll be charged for some of these services because they're excluded from your bundle allowance.

Mobile Services	Price	Included?
Calls to standard UK landlines (starting 01, 02,03)	40p/min	Yes
UK mobiles (any network)	40p/min	Yes
Voicemail (555)	Free	Yes
UK text message (to other UK mobiles)	18p	Yes
UK picture message	40p	No
UK data	10p/mb	Yes

Additional Services

You can use your mobile device for a variety of additional services. These include a range of special numbers.

We may change or introduce new charges for additional services, or services outside of your allowance. If we do, we'll publish any changes on our website. We'll let you know up to 30 days before any change.

If you're unhappy with any changes we make to an additional service, or to services outside your allowance, you can cancel them at any time.

Charge to special numbers and directory enquiries

The following tables outline certain types of calls that are not covered by your allowance. If you have any questions about special numbers, just give us a call.

Calls to numbers starting 0800 and 0808 are now free. Charges for calls to numbers starting 084, 087, 118 and 09 are split into two elements: an access charge (set by us at 25p per minute, with a one minute minimum charge) and a service charge (set by the company you're calling – they'll tell you this). For more info on these changes, please visit www.ukcalling.info.

Making calls and sending messages abroad from the UK

As an Ecotalk customer, you'll already have the ability to make international calls and send international text messages on your device.

Making international calls from the UK

To help you understand the costs for making international calls from the UK, we've categorised the countries into six price bands. (See Appendix A)

Zone 1	Zone 2	Zone 3	Zone 4	Zone 5	Zone 6
35p/min	35p/min	40p/min	40p/min	40p/min	55p/min

Mobile Services	Price
Sending an SMS to any country	40p

Using your SIM abroad - international roaming

As an Ecotalk customer you'll find that international roaming is switched on automatically on your device. To help you manage your roaming costs when you're travelling, we'll text you information about call charges and roaming rates for each country you visit. We also have a worldwide data roaming limit of £40 per month to stop you spending too much on data when travelling outside the UK.

Roaming in the EU

When travelling in Europe you can make calls, text and connect to the internet on your phone for £2 per day.

Did you know:

- Calls made when you're in a Non-European country are normally charged per minute
- Calls received when you're in a Non-European country normally have a one-minute minimum charge and are then charged by the second

Charges vary depending on which country you are travelling in. To help you understand charges, we group countries into six Zones. (See Appendix B)

Other Important Information

What does my bundle include?

Your bundle includes a monthly allowance of minutes, texts and data that allow you to make voice calls (to standard UK landlines starting 01, 02, 03, and UK mobiles), send text messages to standard UK mobile numbers or use data in the UK. If you don't use up your allowance in a month, you lose the unused portion, as it doesn't roll over to the next month.

If you use up your monthly allowance of minutes, texts or data, you'll be charged for additional use. Prices for use outside of your allowance are shown in this Price Guide. If your inclusive allowance of voice units runs out during a call, we will charge you for the remainder of the call at the charges published in this guide.

How can I use my voice allowance?

Your voice allowance includes calls made from the UK to any other standard UK mobile (beginning 07 but excluding certain non-standard numbers), UK landlines (beginning 01, 02 and 03) and voicemail (retrieved by calling 555 from your mobile in the UK).

How can I use my text allowance?

Your text allowance includes SMS texts sent in the UK to a UK standard mobile beginning 07 but excluding certain non-standard numbers.

Texts within a monthly allowance cannot be converted into text messages sent from the UK to a non-UK standard mobile number, messages sent whilst abroad (outside of a 'roam like at home' destination), or photo and/or video messages.

How can I use my data allowance?

You can use the data units in your bundle to connect to the Internet on your phone in the UK.

You can also use your data units to set up a personal hotspot in the UK if you want to connect more than one device to the Internet at once. You can use any or all of your allowance for this purpose.

What else can't I use my allowances for?

The following are all excluded from monthly allowances:

International calls and messages; calls and messages made and received while abroad to non-UK numbers; premium rate calls and messages; reverse charge messages; message alert services; directory service calls; calls to 0800/0500/0808 numbers that are not on the Telephone Helplines Association list, non-geographic numbers (starting 087, 084) and special numbers (e.g. 090, 070)

Do you break down the cost of the units that I get as part of my package anywhere?

Yes – you'll see a breakdown of the exact cost of the units included within your bundle's allowances on your monthly bill. On page two of your monthly bill, you'll see a usage summary of your monthly usage, and from page three onwards you'll see a full itemised display of everything you have used your mobile device for.

Can I use my SIM card in anything other than a mobile phone?

You can only use the voice and text allowance in you phone, however you may use your SIM as a data only SIM in other devices

What will I have to pay if I want to cancel my contract?

Nothing – as you are on a 30 day rolling contract, you just need to give us 30 days' notice, and we'll then terminate your contract with us. During this 30 day notice period, you'll be able to move your existing number to a new provider.

Charging and billing

Calls (except calls to short code and premium rate numbers) under one minute are charged for a minute's duration. Calls of more than one minute are charged for their actual duration, with fractions of a second rounded to the nearest second (this does not apply to some roaming calls, calls to service numbers and special calls).

Calls to Service Numbers (starting 084, 087, 09 and 118) are charged differently from other numbers. The access charge element of these calls will be treated as a minimum of one minute. If your call lasts less than one minute, your access charge will be rounded up to a duration of one minute.

For calls of more than one minute, the access charge element is charged for its actual duration, with fractions of a second being rounded to nearest second. The service charge element is set by the company you're calling, and may comprise: (1) a price per minute service charge; (2) a price per call service charge; (3) a price per call service charge plus a price per minute service charge (which runs from the start of your call); and (4) a price per call service charge plus a price per minute service charge (which runs from 60 seconds after the call starts).

If the service charge includes a price per minute service charge, this will be charged for its actual duration (except if the first 60 seconds have been excluded), with fractions of a second rounded to the nearest second. For example, if you make a call to a service number at 10p per minute and your call lasts 30 seconds, you'll be charged a total of 30p for this call. This is made up of 25p for the access charge plus a 5p service charge for 30 seconds of call time.

Each individual charge on the itemised section of your bill is shown with VAT excluded, and is rounded up or down to the nearest tenth of a penny to make it easier to read. This rounding process means that the total charges you see on your usage summary page may not always be identical to the total due charge you see on the front page of your bill. This is normal and you're not being overcharged or undercharged. The actual amount you need to pay is on the front page of your bill, including VAT.
