Leading the future of commodity trading with TradeSprint

TradeSprint is a cloud-agnostic, AI-ready CTRM platform for Agri and Manufacturing firms, delivering fast value through modular deployment and seamless integrations

Is market volatility and manual work slowing your commodity trading?

Managing risk, maintaining compliance, and optimizing margins are more critical than ever. Outdated systems and manual workflows can lead to inefficiencies, increased exposure, and missed opportunities.

Mindsprint delivers a robust TradeSprint solution designed to streamline your entire trade lifecycle. Gain real-time visibility, enhance risk controls, and empower your team with actionable intelligence. Our customizable SaaS solution adapts to your unique business needs, reducing operational overhead and maximizing ROI.

Business Outcomes

The estimated annual benefit for the TradeSprint CTRM implementation was derived from projected gains across three key dimensions

Improved Decision Making
33%

Efficiency Gains
40%

Risk Reduction
27%

Efficiency Gains

These come from reducing manual effort, improving turnaround time, and automating workflows:

Workflow Automation: Faster shipment planning, document generation, and milestone tracking.

Reporting Enhancements: Reduced time spent on manual report compilation and reconciliation.

User Experience Improvements: Better navigation and fewer errors in contract and trade execution.

Estimated savings: FTEs saved across operations and finance

Risk Reduction

These benefits stem from improved compliance, audit readiness, and real-time data visibility:

Regulatory Compliance Automation: Avoid penalties and reduce audit effort.

Real-Time Market Data Integration: Better hedging decisions and reduced exposure.

Financial Settlement Enhancements: Fewer payment delays and FX mismatches.

Estimated savings: Avoided penalties and improved controls

Improved Decision-Making

These gains are from better forecasting, pricing, and strategic planning:

AI & Predictive Capabilities: Smarter trade recommendations and risk alerts.

Advanced Reporting & Analytics: Visibility into trends, seasonality, and profitability.

Estimated impact: Better trade margins and reduced missed opportunities
