

AgriConnect

AI isn't the future—it's the now. As industries embrace automation, the demand for tailored AI solutions is rising fast. Enter AgriConnect—a custom-built Gen AI ecosystem designed for Olam Agri to boost productivity, streamline operations, and empower teams across profit centers.

Platform Overview

AgriConnect brings together multiple Large Language Models—like GPT-4, DeepSeek-R1, Mistral Large, and Llama 3.1—on a single platform. Unlike other tools, it gives you unmatched flexibility, access to up to 10 Gen AI models, and full integration with Olam data—all under enterprise-grade security.

Key Features

Extract insights from PDFs, Word, and text files.

Document Interactor

Your custom-built AI chatbot.

AgriQBot

Translate documents in 100+ languages.

Multi-Language Translation

Analyze video, image, and audio files.

Media Interactor

Convert documents into listenable podcasts.

PDF Podcast

Analyze several documents at once.

Multi-Document Interactor

Extract data from scanned invoices and PDFs.

Invoice OCR

Success Story

90%

Faster Data Retrieval

10+

Custom AI Modules

100+

Active Users

50+

Languages Supported

Why AgriConnect?

1 Tailored to your workflows.

2 Access 10+ LLMs in one platform.

3 Directly integrates with internal Olam Agri documents.

4 Built with enterprise-grade security.

Transform the Way You Work with AI

AgriConnect goes beyond conventional tools—it's an intelligent AI-driven platform engineered to optimize workflows, accelerate outcomes, and empower every team across the enterprise.
