Introducing SPRINT AP™ by MINDSPRINT

the Intelligent, touchless solution for Accounts Payable

Mindsprint's SPRINT AP™ application transforms Accounts Payable management with a suite of powerful, streamlined features designed to boost efficiency and reduce errors. Here's how SPRINT AP™ revolutionizes your AP process

Invoice Management
Automatically capture, process, and manage invoices, cutting down on manual data entry and minimizing errors.

Controls Module
Enhanced controls driving better compliance through duplicate validation, quality check, segregation of duties, etc

Approval Workflows
Customize approval routes to ensure invoices are routed and authorized in line with company policies.

Audit Trails
Keep detailed logs of transactions and approvals for compliance, accountability, and easier auditing.

Vendor Helpdesk
Powered by GenAI, maintain real time communication with vendors for enhanced user experience and stronger supplier relationships.

Integration Capabilities
Seamlessly integrate SPRINT AP™ with other financial systems for smooth data flow and improved operational efficiency.

Query Management
Seamless communication within the organization to resolve first pass failures.

by MINDSPRINT

Reporting & Analytics
Gain insights into payables, outstanding invoices, and key financial metrics with robust reporting tools.

The SPRINT AP™ Advantage

imagine an AP process that's efficient, accurate, and even enjoyable. Let's explore what sets us apart and how we can help you achieve your goals.

Cognitive AI
Unlike rule-based systems, our platform uses AI that learns and evolves, continuously improving to meet your business needs.

Proactive & predictive
Beyond solving problems, we anticipate risks, forecast trends, and tailor the AP experience to each user's needs.

Actionable Insights
We analyze data to provide insights that optimize cash flow, uncover savings, and give you a competitive edge.

Customer-Centric
Our Agentic AP Helpdesk delivers intelligent, automated support for seamless supplier interactions and smooth operations.
