

Case Study

Transforming Global Agri Operations with SAP S/4HANA

A global agri-business modernized operations across 35 countries on a unified, scalable SAP S/4HANA platform, delivered in just nine months.

Project Overview

To spearhead one of the largest global agri SAP S/4HANA transformations across complex commodity operations and geographies.

About the client

A global agri-business with operations including sourcing, processing and distribution, serving diverse commodity value chains across multiple countries, products, services, applications and enterprise functions.

Business Challenges

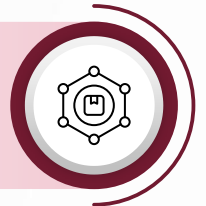

Fragmented legacy systems created complexity across global sourcing, processing and distribution operations.

01

Commodity trading, multi-origin sourcing and supply chain execution required greater standardization and visibility.

02

The business needed to manage high data volume, application integrations and deployment downtime during the transition.

03

Our Solution

Mindsprint led a brownfield selective data transition to SAP S/4HANA, helping Olam Agri move from fragmented legacy systems to a dedicated global SAP GT instance.

The transformation brought together Mindsprint’s SAP modernization expertise, agri-domain knowledge, automation-led delivery and integration capabilities to support a complex, expertly orchestrated deployment across countries, applications and enterprise functions. We delivered a unified global platform built for local realities and future growth.

Features Delivered

Brownfield selective data transition to a unified SAP S/4HANA platform

01

02

Standardized SAP-led processes across sourcing, processing and distribution

Big Bang global deployment across 35 countries, 10 products & services and 3,000+ SAP users

03

04

Integration of 42 applications and 400+ interfaces across banks, government sites, SaaS, third-party and digital apps

4,500+ automated test scripts supported by Tricentis and Mindsprint accelerators

05

Tool kit

CodeSprint

MergeExpress

DataAssure

DocuSprint

Ledger Cleanup

Project highlights & Impact

- Delivered SAP S/4HANA transformation across **35 countries** in 9 months
- Managed **7TB of data volume** across a complex global migration
- Orchestrated the global deployment with only **48 hours** of production downtime
- Integrated **42 applications** and **400+ interfaces** across the enterprise ecosystem
- Configured **260** Fiori apps and **3,000+** custom ABAP objects
- AI-driven dependency analysis carved out only **OLAM AGRI's** code from the shared estate – so we fixed only what we'd actually use.
- Mindsprint's CodeSprint automation remediated **60%** of **3,000+** custom objects without a single manual correction, beating the **40–50%** industry benchmark.
- Full-coverage data validation across every rehearsal caught anomalies weeks before cutover – no sampling, audit-ready, behind an **85% data reduction**.
- Improved visibility into commodity flows, inventory positions and arm-to-customer traceability

Customer Voice

I am thrilled to announce that Olam Agri has successfully gone live with a separate and dedicated instance of SAP GT system effective 12 May 2025, which enhances our operational efficiency and scalability. Thank you all for your hard work and dedication!

- CDIO, Olam Agri

Industry Recognition

Mindsprint's strengths lie in its clear value proposition for S/4HANA transformation, strong alignment with SAP's RISE and GROW programs, and effective utilization of industry-specific capabilities and BTP within the broader ecosystem.
