Nail Wipes
Dusting Brush
Dotting Tool

Detail Brush
OPI Star Light LED Light
N.A.S. 99 Cleansing Solution
Nature Strong Glow Up Nail
& Cuticle Oil

THE "NAIL ART" STEPS

Begin by prepping nails using our salon pro basics.

1

On a cleansed, clear acrylic extension, use a detail brush and GelColor Black Onyx to create organic uneven dots to resemble a leopard print. Cure for 30 seconds.

2

With a dotting tool and GelColor Route Beer Float, apply organic dots in between a few of the black dots to create the leopard print clusters. Cure for 30 seconds.

3

With an acrylic brush and Liquid Perfection Monomer, pick up a medium-to-large bead of Berlin there, Doin' That. Apply to the entire nail, creating a thin overlay.

4

With an acrylic brush and Liquid Perfection Monomer, pick up a medium-to-large bead of Vodka & Caviar. Apply to the entire nail, creating a thin overlay. Repeat for coverage and allow to set for 3-5 min.

5

With a 180 grit file, contour and shape the nail. Cleanse with N.A.S. 99 and a lint-free wipe to remove any debris.

6

Apply a thin coat of GelColor Super Matte Top Coat. Cure for 30 seconds. Remove the gel residue with a nail wipe saturated in N.A.S. 99.

7

With a detail brush and GelColor Super Gloss No-Wipe Top Coat, create a French smile line. Use the brush from the bottle to fill in the French tip. Cure for 30 seconds.

THE FINISHING TOUCH

Apply Glow Up Nail & Cuticle Oil to the base of each nail and massage in.
