THE STEPS

BEFORE YOU BEGIN: Prep those nails! Follow our OPI Salon Pro Prep basics. Shake all GelColor bottles for 30–60 seconds to blend ingredients prior to application. Apply one coat of GelColor Stay Classic or Stay Strong Base Coat and cure in the OPI LED Light for 30 seconds.

1

Apply a thin coat of GelColor Black Onyx™ or Lady in Black to nails. Cure for 30 seconds in an OPI LED Light. Repeat for coverage.

2

Apply a thin coat of Stay Matte Top Coat. Cure for 30 seconds. Remove gel residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution.

3

Create a 3D gel paste by mixing equal parts Chrome Clawz and Powder Perfection Clear Color Set Powder. Using a detail brush create a dot on the nail, outline the dot and continue adding additional lines that radiate out to the outer edges of the nail. Flash cure for 5 seconds as needed until design is complete and cure for 30 seconds.

4

Apply Stay Shiny Top Coat to the raised design using a detail brush and cure for 30 seconds.

THE FINISHING TOUCH

Remove the gel residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution. Apply ProSpa Nail & Cuticle Oil to the base of each nail and massage in.
