THE "NAIL ART" STEPS

BEFORE YOU BEGIN: Start your color application on new GelEstate prep-free full coverage tips and a coat of Pink Over-slay. No base coat is needed, go straight to the color application.

1

Apply a coat of Super Gloss Top Coat and sprinkle on Powder Perfection Clear Color Set Powder. Cure for 30 seconds. Dust off excess powder.

2

With a makeup sponge, create an aura at the center of the nail using Lollypoppin' Bubblegum. Cure for 30 seconds. Repeat as necessary.

3

Apply a coat of Super Gloss Top Coat. Cure for 30 seconds. Remove gel residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution.

4

On a pallet, mix 1 part OPI'm Frosted and Powder Perfection Clear Color Set Powder to create a gel paste.

5

Using a detail brush create a swirly filigree design on the nail. Cure for 30 seconds. Remove gel residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution.

THE FINISHING TOUCH

Apply Glow Up Nail & Cuticle Oil to the base of each nail and massage in.
