Tropi-cool Wave Nail Art Tutorial

FEATURING NEW SUMMER SHADES

Nail Lacquer

WHAT YOU'LL NEED

PREP & FINISH:
Natural Nail Base Coat
OPI Top Coat
Nature Strong Glow Up Nail
& Cuticle Oil

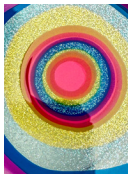

NAIL LACQUER SHADES:
Alpine Snow™
Ultra Violet Daze
Sea-ze the Day

Paintin' on Sunshine
Bright Where I Belong
Go with the Floatie
Your Zestination Awaits

TOOLS & ESSENTIALS:
Cup of room temperature
tap water
Orange wood stick
Silicone sheet
Tweezers

THE STEPS

Before you begin, prep those nails! Follow OPI Lacquer prep basics. Gently roll lacquer bottles for 30-60 seconds to blend ingredients before application. Apply one coat of Natural Nail Base Coat and let dry for 1-2 minutes.

1

Drop: In a cup of room-temperature tap water, apply one drop of Ultra Violet Daze to the center. Quickly follow with Sea-ze the Day, Paintin' on Sunshine, Bright Where I Belong, Go with the Floatie, and Your Zestination Awaits.

2

Drag: Using an orange wood stick, gently drag from the outermost ring toward the center to create your desired pattern. Repeat as needed and allow the lacquer to dry for about 10 min.

3

Lift: Gently pick up the dried lacquer design with tweezers and place on a silicone sheet. Allow the water to dry off for about 10 min.

4

Paint one coat of Alpine Snow on the nail and let it dry for about 30 secs. Press the lacquer design onto the nail and smooth out any air bubbles. Gently file the free edge with a 240-grit file to remove excess.

5

Use a clean-up brush and Expert Touch Lacquer Remover to smooth out and remove any excess product.

6

Apply a coat of OPI Top Coat and allow to dry for 1-2 min.

THE FINISHING TOUCH

Massage Nature Strong Glow Up Nail & Cuticle Oil into the base of each nail to moisturize.
