THE STEPS

BEFORE YOU BEGIN: Prep those nails! Follow our OPI Salon Pro prep basics. Shake all GelColor bottles for 30–60 seconds to blend ingredients prior to application. Apply one coat of GelColor Stay Classic or Stay Strong Base Coat and cure in the OPI LED Light for 30 seconds.

1

Apply a thin coat of GelColor Lucky Lucky Lavender to nails. Cure for 30 seconds in an OPI LED Light.

2

Apply a thin coat of Lucky Lucky Lavender to the top 2/3 of the nail and Cyborn Again to the bottom 1/3 of the nail. Blend the Shades together with a brush to create an ombre. Cure for 30 seconds.

3

Remove gel residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution. Apply Powder Perfection Base Coat to the areas where chrome pearls will be applied and press the chrome pearls into the adhesive.

4

Mix equal parts Stay Shiny Top Coat with Cyber Cherry on Top and Powder Perfection Clear Color Set powder to create a sheer colored paste. Apply over each chrome pearl, flash cure each for 5 seconds. Use a detail brush to create 3D swooshes around the cherries. Cure for 30 seconds.

5

With the detail brush and Black Onyx™ or Lady in Black, create cherry stems. Cure for 30 seconds.

THE FINISHING TOUCH

Apply a coat of GelColor Stay Shiny Top Coat and cure for 30 seconds. Remove the gel residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution. Apply ProSpa Nail & Cuticle Oil to the base of each nail and massage in.
