Detail Brush  
Sanitized Cosmetic Brush

### START

BEFORE YOU BEGIN: Follow OPI Powder Perfection Prep Step-by-Steps.

### PRO TIP

Lightly brush away excess powder with a cosmetic brush between coats to prevent powder from contaminating base coat.

1

Apply one coat of Powder Perfection Base Coat to one nail leaving the perimeter free. Immediately dip the nail in Powder Perfection Pink in Bio. Repeat to cover the entire nail.

2

Apply one coat of Powder Perfection Base Coat to one nail and immediately dip in Powder Perfection Clear Color Set Powder. Apply a generous coat of Powder Perfection Activator and allow to dry for 1-2 minutes (4 minutes for international).

3

Refine the shape as needed working from an Edge 180 File. Buff the nail with a Flex 100/180 Buffer. Cleanse the nail with N.A.S. 99 Cleansing Solution and an Expert Touch Nail Wipe. Apply a coat of GelColor Stay Classic Base Coat to the nail. Cure in the OPI LED Light for 30 seconds. Follow with 1 coat of GelColor Stay Shiny Top Coat. Cure for 30 seconds. Remove the gel residue with N.A.S. 99 Cleansing Solution and an Expert Touch Nail Wipe.

4

Using a detail brush and GelColor Alpine Snow create a wavy pattern on the nail. DO NOT CURE.

5

Sprinkle Powder Perfection NFTease Me over a section of the nail. Repeat with Spring Break the Internet, Clear Your Cash and Blinded by the Ring Light. Cure for 30 Seconds.

### FINISH

Cleanse the nail with N.A.S. 99 Cleansing Solution and an Expert Touch Nail Wipe. Apply ProSpa Nail & Cuticle Oil to each nail and massage in.
