THE STEPS

BEFORE YOU BEGIN: Complete OPI Powder Perfection Prep Step by Steps. Fill cups for dispensing powder in Flex on the Beach and Clear Color Set.

1

Apply one coat of Powder Perfection Base Coat to the nail leaving the perimeter free. Immediately dip the nail in Powder Perfection Flex on the Beach

2

Apply one coat of Powder Perfection Base Coat to the entire nail. Immediately dip the nail in Powder Perfection Flex on the Beach.

3

Apply one coat of Powder Perfection Base Coat and immediately dip in Powder Perfection Clear Set Powder. Lightly brush away excess with a cosmetic brush. Apply a generous coat of Powder Perfection Activator and allow to dry 12 minutes (4 minutes for international)

4

Refine the shape as needed working from an Edge 180 File. Buff the nail with the 100 grit side of the Flex 100/180 Buffer. Cleanse the nail thoroughly with an Expert Touch Nail Wipe and N.A.S. 99.

5

Apply a coat of GelColor Stay Classic Base Coat. Cure for 30 seconds in an OPI LED Light. Apply a coat of GelColor Stay Matte Top Coat. Cure for 30 seconds in an OPI LED Light. Cleanse with N.A.S. 99 Cleansing Solution and an Expert Touch Nail Wipe.

5

Using a nail piercing tool or an e-file fitted with a fine hole bit drill a small hole in the tip of the nail. Open a jump ring with pliers and add a letter to the ring. Slip the ring into the hole and close the ring with pliers.

PRO TIP

Lightly brush away excess with a cosmetic brush between coats to prevent powder from contaminating base coat.

THE FINISHING TOUCH

Apply ProSpa Nail & Cuticle Oil to each nail and massage in.
