THE "NAIL ART" STEPS

BEFORE YOU BEGIN: Prep those nails! Follow our OPI Salon Pro prep basics.

1

Apply a thin coat of Base Coat, leaving a thin perimeter at the cuticle line. Immediately dip/pour over Powder Perfection Happy Play-ce. Lightly brush away excess powder with a clean cosmetic brush.

2

Apply a thin coat of Base Coat to the entire nail, immediately dip/pour over Happy Play-ce. Lightly brush away excess powder.

3

Apply a coat of Powder Perfection Base Coat to the nail and immediately dip/pour on Clear Color Set Powder. Lightly brush away excess powder. Apply a generous coat of Activator to the entire nail and cap the edge, then allow to dry for 4 minutes.

4

Refine the shape as needed starting with a 180-grit file. Buff the nail with a 100/180-grit buffer, followed by 220-grit buffer. Brush away any dust.

5

Apply a generous coat of Activator and cap the edge. Allow to dry for 4 minutes. Use a dry nail wipe to remove any excess activator.

6

Apply a coat of Powder Perfection Top Coat. Allow to dry for 4 minutes. Repeat for high shine.

7

Using a detail brush and GelColor Alpine Snow™ create cloud shapes on the nail. DO NOT CURE.

8

Pour Powder Perfection Hands in the Clouds over the uncured GelColor. Allow to saturate for 30 seconds. Cure for 30 seconds in the OPI Star Light.

9

Create smaller cloud shapes within the first clouds and pour over Powder Perfection Keep it Surreal. Cure for 30 seconds. Remove any remaining powder residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution.

THE FINISHING TOUCH

Apply ProSpa Nail & Cuticle Oil to the base of each nail and massage in.
