WHAT YOU'LL NEED

Super Base Base Coat
Super Gloss Top Coat
GelColor:
Put it in Neutral

Ga-Linda
Oh, For Oz Sake
Alpine Snow™
OPI Star Light Gel Lamp

Expert Touch Nail Wipe
N.A.S. 99 Cleansing Solution
ProSpaNail & Cuticle Oil
Oval brush

Holographic chrome flakes
Silicone butterfly mold
Tweezer

THE STEPS

BEFORE YOU BEGIN: Prep those nails! Follow our OPI Salon Prep Basics. Apply one coat of GelColor Super Base Base Coat. Cure for 30 seconds in the OPI Star Light.

1

Dip an oval brush in holographic chrome flakes and press into the cured base coat to cover the tip of the nail.

2

Apply a coat of Oh, For Oz Sake over the chrome flakes. Cure for 30 seconds.

3

Apply a thin coat of Put it in Neutral in a reverse french style to the nail leaving the tip clear. Cure for 30 seconds. Repeat for coverage.

4

Apply a coat of Ga-Linda! over Put it in Neutral. Cure for 30 seconds.

5

Dip a detail brush in Alpine Snow™ and outline the smile line. Repeat this step creating a second line below the first. Cure for 30 seconds.

6

Create gel butterflies by filling a silicone butterfly mold with Super Gloss Top Coat. Cure for 30 seconds and then remove gel residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution. Gently remove the butterfly shapes from the mold and bend to shape.

7

Apply a coat of Super Gloss Top Coat to the nail. Before curing, use a tweezer to place the butterfly in the uncured top coat and flash cure for 5 seconds to lock it in place. Repeat for all butterflies, then cure the entire hand for 30 seconds. Remove gel residue with a nail wipe saturated with N.A.S. 99 Cleansing Solution.

PRO TIP

You can reinforce the wear of your butterflies by using a detail brush to apply more Super Gloss Top Coat around the base of the embellishment and curing for 30 seconds.

THE FINISHING TOUCH

Apply ProSpa Nail & Cuticle Oil to the base of each nail and massage in.
