- OPI PRO SPA Nail & Cuticle Oil
- Cosmetic Brush
- Dipping Cups
- Clean Up Brush

STEP BY STEPS

Prepare your dipping cups by filling with POWDER PERFECTION Achievement Unlocked and Clear Color Set Powder.

1

Apply one coat of POWDER PERFECTION Base Coat to one nail leaving the perimeter free. Immediately dip the nail into POWDER PERFECTION Alpine Snow. Lightly brush away excess with a cosmetic brush. Repeat for coverage, covering the entire nail with the second coat.

Apply one coat of POWDER PERFECTION Base Coat to in a diagonal wavy line down the center of the nail. Immediately pick up POWDER PERFECTION Racing for Pinks with an oval brush and sprinkle over the base coat creating a marble effect.

2

3

Apply a layer of POWDER PERFECTION Base Coat to the entire nail, apply POWDER PERFECTION Activator and wait 5-6 seconds (10 seconds for International). Cut a piece of rose transfer foil the size of the nail and press firmly into the base coat. Smooth the foil flat to the nail and allow the base coat to set before removing the transfer foil backing and leaving the design on the nail.

Apply POWDER PERFECTION Base Coat and immediately dip in POWDER PERFECTION Clear Color Set Powder. Dust off excess powder. Apply one generous coat of POWDER PERFECTION Activator and wait 1-2 minutes (4 minutes for International).

4

5

Refine the shape as needed working from an EDGE 180 File. Buff the nail starting with the FLEX 100/180 Buffer then the FLEX 220/280 Buffer. Remove dust and apply a second generous coat of POWDER PERFECTION Activator to the nail and allow to dry for 1-2 minutes (4 minutes for International).

FINISH

Apply two coats of POWDER PERFECTION Top Coat and allow to dry 1-2 minutes between each coat. Apply PRO SPA Nail & Cuticle Oil and massage in.

PRO TIP

Float your Top Coat brush and use minimal strokes when applying. Overworking your Top Coat will result in a matte finish.
